

GED RLA Practice Test 11

PART A — QUESTIONS

GED-RLA11-001

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the passage and answer the question.

The Weather Balloon Team

At 6:30 on a cold Saturday morning, a group of students gathered behind the county science center with a white balloon, a small instrument box, and a roll of orange tape. The project looked simple: fill the balloon with helium, attach the box, and let it rise. But the teacher leading the team, Mr. Sato, reminded them that the launch was only one part of the work. The real goal was to collect and interpret weather data.

The instrument box carried sensors that measured temperature, air pressure, humidity, and altitude. As the balloon rose, it sent information to a receiver on the ground. Students expected the temperature to drop steadily as the balloon climbed, but the data showed a brief layer where the air became warmer. Mr. Sato explained that this was a temperature inversion, a condition that can trap smoke, pollution, or fog near the ground.

The balloon eventually burst high in the atmosphere, as planned, and a small parachute carried the instrument box back to Earth. The team used a tracking signal to find it in a harvested cornfield twelve miles away. Back at the science center, the students graphed the data and compared it with the morning forecast.

The project did not turn students into professional meteorologists in one day. It did show them that weather reports are built from measurements, patterns, and careful interpretation. A forecast on a phone may look simple, but behind it is a long chain of observations.

What is the main idea of the passage?

- A) A weather balloon project helped students understand how measurements are used to study weather.
- B) Students launched a balloon without collecting any useful information.
- C) Mr. Sato wanted students to stop using weather forecasts.
- D) The weather balloon failed because the instrument box was never recovered.

GED-RLA11-002

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Weather Balloon Team.”

What was the main goal of the project?

- A) To collect and interpret weather data
- B) To decorate the science center

- C) To test how far students could walk in a cornfield
- D) To prove that phone forecasts are always wrong

GED-RLA11-003

Section: RLA

Type: multi_select

Category: Reading for Meaning

Prompt:

Select TWO answers.

Refer to “The Weather Balloon Team.”

Which TWO kinds of information did the instrument box measure?

- A) Air pressure
- B) Humidity
- C) Student attendance
- D) Cornfield size
- E) Road traffic

GED-RLA11-004

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Weather Balloon Team.”

What can be inferred from the temperature inversion described in the passage?

- A) Air temperature does not always change in a simple pattern as altitude increases.
- B) The balloon stopped sending information before it rose.
- C) Students measured only wind speed during the project.
- D) A temperature inversion means the forecast must be ignored.

GED-RLA11-005

Section: RLA

Type: dropdown

Category: Reading for Meaning

Prompt:

Refer to “The Weather Balloon Team.”

In the sentence “behind it is a long chain of observations,” the word observations most nearly means [D1].

Dropdowns:

D1) careful measurements and records | guesses without evidence | objects used for decoration

GED-RLA11-006

Section: RLA

Type: drag_drop

Category: Reading for Meaning

Prompt:

Refer to “The Weather Balloon Team.”

Match each target with the correct tile.

Tiles:

- A) The box measured temperature, air pressure, humidity, and altitude.
- B) The data showed a brief layer where the air became warmer.
- C) A tracking signal helped students find the box in a cornfield.
- D) The students left the instrument box in the sky permanently.

Targets:

- T1) Evidence that the project collected data
- T2) Evidence that the results included an unexpected pattern
- T3) Evidence that the equipment was recovered

GED-RLA11-007

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the workplace document and answer the question.

Customer Callback Escalation Procedure

To: Customer Support Representatives and Team Leads

From: Service Operations Manager

Subject: Callback Escalation Procedure

Beginning February 4, customer support representatives must use the Callback Escalation Form when a customer has called about the same unresolved issue three or more times within seven days. The form is designed to prevent repeated calls from being treated as separate, unrelated problems.

Before completing the form, representatives should review the customer's account notes, previous ticket numbers, promised actions, and any deadlines already given to the customer. If a previous ticket is still open, do not create a duplicate ticket. Add the new information to the existing ticket and mark it for team lead review.

The form requires the customer name, account number, original issue date, previous ticket numbers, summary of the unresolved issue, and the best callback window. Representatives should avoid blaming another department in the notes. Instead, describe the issue clearly and list what has already been attempted.

A team lead must review the escalation before the end of the shift. The goal is to give the customer one clear point of follow-up, reduce repeated explanations, and identify problems that need attention from another department.

What is the main purpose of the document?

- A) To explain when and how representatives should escalate repeated unresolved customer issues
- B) To tell representatives to delete account notes after every call
- C) To require customers to open duplicate tickets for every problem
- D) To prevent team leads from reviewing customer complaints

GED-RLA11-008

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “Customer Callback Escalation Procedure.”

When should representatives use the Callback Escalation Form?

- A) When a customer has called about the same unresolved issue three or more times within seven days
- B) Whenever a customer asks a question about store hours
- C) Only when a customer’s issue has already been solved
- D) Before reviewing any account notes

GED-RLA11-009

Section: RLA

Type: multi_select

Category: Reading for Meaning

Prompt:

Select TWO answers.

Refer to “Customer Callback Escalation Procedure.”

Which TWO details are required on the form?

- A) The customer name
- B) The best callback window
- C) The representative’s favorite department
- D) The customer’s personal shopping preferences
- E) The team lead’s vacation schedule

GED-RLA11-010

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “Customer Callback Escalation Procedure.”

What should a representative do if a previous ticket is still open?

- A) Add new information to the existing ticket and mark it for team lead review.
- B) Create several duplicate tickets to increase visibility.
- C) Close the ticket without contacting anyone.
- D) Remove all earlier notes from the account.

GED-RLA11-011

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Customer Callback Escalation Procedure.”

Which sentence best explains the reason for the procedure?

- A) “Beginning February 4, customer support representatives must use the Callback Escalation Form.”
- B) “The form is designed to prevent repeated calls from being treated as separate, unrelated problems.”

- C) “Representatives should avoid blaming another department in the notes.”
- D) “A team lead must review the escalation before the end of the shift.”

GED-RLA11-012

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Read the argument and answer the question.

Make Room for Workplace English Classes

Employers with many multilingual workers should consider offering voluntary English classes at the worksite before or after shifts. These classes would not replace job training or safety instruction, and they should not be used to pressure workers to give up their home languages. Instead, they would give employees another tool for communication, advancement, and confidence.

The benefits are practical. Workers who improve workplace English may feel more comfortable asking questions, reading notices, completing forms, or applying for promotions. Supervisors may also benefit when employees can discuss schedules, safety concerns, or customer requests more clearly. A small manufacturer in the region reported that after offering a twice-weekly class for six months, more employees applied for team leader training.

The program should be designed respectfully. Classes should be free, voluntary, and scheduled so that workers are not forced to choose between learning and family responsibilities. Employers could partner with adult education instructors who understand how to teach language for real work situations.

Some critics may argue that language classes are not an employer’s responsibility. However, employers already invest in communication when they provide manuals, training videos, and safety meetings. A voluntary English class is another way to reduce barriers and support workers who want to grow. When employees gain communication skills, both the worker and the workplace can benefit.

What is the author’s main claim?

- A) Employers should consider voluntary workplace English classes because they can support communication and advancement.
- B) Employers should require workers to stop using their home languages.
- C) English classes should replace safety training for all workers.
- D) Workers who speak more than one language should not apply for promotions.

GED-RLA11-013

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Make Room for Workplace English Classes.”

Which evidence best supports the claim that classes can help advancement?

- A) More employees applied for team leader training after one manufacturer offered classes.
- B) Classes should not replace job training.

- C) Workers may have family responsibilities after shifts.
- D) Employers already provide manuals and safety meetings.

GED-RLA11-014

Section: RLA

Type: multi_select

Category: Identifying and Creating Arguments

Prompt:

Select TWO answers.

Refer to “Make Room for Workplace English Classes.”

Which TWO design features does the author recommend?

- A) Classes should be voluntary.
- B) Classes should be free.
- C) Workers should lose pay if they do not attend.
- D) Classes should replace all safety meetings.
- E) Workers should be banned from speaking other languages.

GED-RLA11-015

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Make Room for Workplace English Classes.”

How does the author respond to the idea that language classes are not an employer’s responsibility?

- A) By comparing language classes to other employer investments in communication
- B) By saying employers should stop providing manuals
- C) By claiming workers should never ask questions at work
- D) By arguing that home languages are a workplace problem

GED-RLA11-016

Section: RLA

Type: dropdown

Category: Identifying and Creating Arguments

Prompt:

Refer to “Make Room for Workplace English Classes.”

Choose the sentence that would best strengthen the author’s argument if added after paragraph 2:

[D1]

Dropdowns:

D1) A worker survey found that many employees wanted to apply for higher positions but felt unsure about completing written applications in English. | The training room has a whiteboard and twenty chairs. | Some employees prefer morning classes to evening classes.

GED-RLA11-017

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Make Room for Workplace English Classes.”

Which assumption is most important to the author's argument?

- A) Some workers want additional English practice to help them communicate and pursue opportunities.
- B) Every worker must speak only English to do a job well.
- C) Employers should stop hiring multilingual workers.
- D) Language instruction is useful only for children.

GED-RLA11-018

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the literary excerpt and answer the question.

The Hemmed Jacket

Sofia had worked at the alteration shop for five months, mostly pressing seams and replacing simple buttons. She liked the order of the place: spools arranged by color, chalk marks brushed away at closing, pins returned to their tins. What she did not like was the row of jackets waiting for final hems. A sleeve could hide a mistake. A jacket hem sat in plain sight.

On Tuesday, Mrs. Patel placed a navy jacket on Sofia's table. "Customer picks it up at four," she said. "You measured this one yesterday. Now finish it."

Sofia unfolded the jacket and found her own chalk line still visible. It looked too high, then too low, depending on how she held the fabric. She measured again. The number matched the ticket. Still, she hesitated.

Mrs. Patel watched without touching the jacket. "A good alteration is not a guess," she said. "But it is also not fear. Measure, pin, check, stitch."

Sofia pinned the hem and hung the jacket on the form. The fabric fell evenly. She checked the ticket again, then guided the cloth under the machine. The first line of stitches sounded louder than usual, though the shop radio played at the same volume as always.

At 4:10, the customer tried on the jacket and turned once before the mirror. "That's exactly right," he said.

Sofia looked at the hem. It was not invisible, but it belonged there. For the first time, the row of unfinished jackets looked less like a warning and more like work she could learn.

What is the main conflict in the excerpt?

- A) Sofia must overcome her fear of making a visible mistake while completing a jacket hem.
- B) Sofia tries to convince Mrs. Patel to close the alteration shop.
- C) Sofia argues with a customer about the shop radio.
- D) Sofia refuses to measure the jacket before stitching.

GED-RLA11-019

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Hemmed Jacket.”

Why does Sofia dislike the row of jackets waiting for final hems?

- A) She believes a jacket hem makes mistakes easy to see.
- B) She does not know how to replace buttons.
- C) She wants to work only at the cash register.
- D) She thinks jackets should never be altered.

GED-RLA11-020

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Hemmed Jacket.”

What does Mrs. Patel’s advice suggest?

- A) Careful work requires both accuracy and confidence.
- B) Sofia should stitch without checking measurements.
- C) Fear is the best way to finish difficult work.
- D) Customers do not notice whether hems are even.

GED-RLA11-021

Section: RLA

Type: multi_select

Category: Reading for Meaning

Prompt:

Select TWO answers.

Refer to “The Hemmed Jacket.”

Which TWO details show Sofia working carefully?

- A) She measures the jacket again.
- B) She hangs the jacket on the form to check how the fabric falls.
- C) She turns off the shop radio.
- D) She gives the customer a different jacket.
- E) She removes the chalk line without checking it.

GED-RLA11-022

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Hemmed Jacket.”

What does the final sentence suggest about Sofia?

- A) She begins to see difficult tasks as skills she can develop.
- B) She decides to stop working at the alteration shop.
- C) She believes she will never make a mistake again.
- D) She wants Mrs. Patel to finish all future jackets.

GED-RLA11-023

Section: RLA

Type: drag_drop

Category: Reading for Meaning

Prompt:

Refer to “The Hemmed Jacket.”

Match each target with the correct tile.

Tiles:

- A) Sofia sees her chalk line and hesitates.
- B) Mrs. Patel says, “Measure, pin, check, stitch.”
- C) The customer says the jacket is exactly right.
- D) Sofia throws away the customer’s ticket.

Targets:

- T1) Evidence of Sofia’s uncertainty
- T2) Guidance that gives Sofia a process
- T3) Evidence that Sofia’s work succeeds

GED-RLA11-024

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the informational passage and answer the question.

Understanding a Pay Stub

A pay stub is more than a record of how much money was deposited into a worker’s account. It explains how gross pay becomes net pay. Gross pay is the amount earned before deductions. Net pay is the amount the worker receives after taxes, insurance, retirement contributions, and other deductions are taken out.

One useful section of a pay stub is the year-to-date column. It shows totals from the beginning of the year through the current pay period. A worker can use this column to check total earnings, taxes withheld, or contributions to a retirement plan. This information may be helpful when budgeting, applying for a loan, or preparing tax documents.

Another important detail is the difference between required and optional deductions. Payroll taxes are required by law. Health insurance premiums or retirement contributions may depend on choices the worker made during enrollment. If a deduction looks unfamiliar, the worker should ask payroll or human resources for an explanation rather than assuming it is correct.

Pay stubs can also reveal errors. Hours worked, overtime, paid leave, or benefit deductions may be listed incorrectly. Reviewing each stub soon after payday makes it easier to correct mistakes while records are fresh. A pay stub may look like a routine document, but it is an important tool for understanding earnings.

What is the main idea of the passage?

- A) A pay stub helps workers understand earnings, deductions, totals, and possible errors.
- B) A pay stub shows only the amount deposited and no other information.

- C) Workers should ignore deductions because they are always correct.
- D) Net pay is the amount earned before any deductions are taken out.

GED-RLA11-025

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to "Understanding a Pay Stub."

What is gross pay?

- A) The amount earned before deductions
- B) The amount left after all deductions
- C) A fee paid to human resources
- D) A retirement account number

GED-RLA11-026

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to "Understanding a Pay Stub."

Why is the year-to-date column useful?

- A) It shows totals from the beginning of the year through the current pay period.
- B) It lists only the worker's favorite benefits.
- C) It replaces all tax documents automatically.
- D) It shows the worker's future pay for next year.

GED-RLA11-027

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to "Understanding a Pay Stub."

Which sentence best supports the idea that workers should review pay stubs promptly?

- A) "A pay stub is more than a record of how much money was deposited into a worker's account."
- B) "Gross pay is the amount earned before deductions."
- C) "Reviewing each stub soon after payday makes it easier to correct mistakes while records are fresh."
- D) "Payroll taxes are required by law."

GED-RLA11-028

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to "Understanding a Pay Stub."

How is the passage mainly organized?

- A) It defines pay stub terms, explains useful sections, and gives advice about checking for errors.
- B) It tells a story about one worker changing jobs.
- C) It ranks payroll departments from best to worst.
- D) It argues that workers should not read financial documents.

Type: mcq

Category: Grammar and Language

Prompt:

Which sentence uses parallel structure?

- A) The form asks for vehicle make, license plate number, and whether the employee works full time.
- B) The form asks for vehicle make, license plate number, and employment status.
- C) The form asks for naming the vehicle, a plate number, and to show employment.
- D) The form asks for vehicle make, plates that are numbered, and working full time.

GED-RLA11-038

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the paired passages and answer the question.

Passage A: Try a Four-Day Workweek Pilot

The accounting firm should test a four-day workweek for three months during its slower season. Employees would work four longer days and have Friday off, while client coverage would be handled through rotating on-call staff. The goal is not to reduce responsibility. The goal is to see whether a different schedule can maintain productivity while improving focus and morale.

A pilot program would provide useful evidence. Some employees say they lose time restarting tasks after frequent interruptions spread across five days. Longer blocks of focused work may help them complete reports and reviews more efficiently. A three-month test would allow managers to compare project completion, client response times, overtime, and employee feedback before making any permanent decision.

The firm can design the pilot carefully. Departments could stagger schedules if needed, set clear client response rules, and pause the pilot during deadline weeks. A limited test is less risky than making assumptions. If the data show problems, the firm can return to the current schedule. If the results are positive, the firm may gain a hiring advantage without increasing pay.

Passage B: Keep the Five-Day Schedule

The accounting firm should keep its current five-day schedule. A four-day workweek may sound attractive, but longer days can create fatigue, especially during work that requires accuracy and concentration. A tired employee reviewing financial records may be more likely to miss details. The firm should not trade one kind of stress for another.

Client service is another concern. Many clients expect questions to be answered Monday through Friday. Rotating on-call staff may help, but it could also create confusion about who is responsible

for each account. If clients feel they are waiting longer for responses, the firm's reputation may suffer.

The slower season is also when the firm trains staff, updates procedures, and prepares for busier months. Compressing the schedule could push these tasks aside. Instead of changing the workweek, managers should address interruptions directly by limiting unnecessary meetings, improving task assignment, and setting quiet work blocks. These changes would improve focus without disrupting client expectations or lengthening workdays.

What is the central difference between the two passages?

- A) Passage A supports testing a four-day workweek, while Passage B argues the five-day schedule better protects accuracy and client service.
- B) Passage A argues that employees should stop serving clients, while Passage B argues that accounting work should end.
- C) Passage A supports cutting pay, while Passage B supports eliminating training.
- D) Passage A focuses on parking permits, while Passage B focuses on weather data.

GED-RLA11-039

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about the four-day workweek.

Which evidence most directly supports Passage A's argument?

- A) A three-month test would allow managers to compare productivity, response times, overtime, and employee feedback.
- B) Longer days can create fatigue.
- C) Clients expect questions to be answered Monday through Friday.
- D) Training often happens during the slower season.

GED-RLA11-040

Section: RLA

Type: multi_select

Category: Identifying and Creating Arguments

Prompt:

Select TWO answers.

Refer to the paired passages about the four-day workweek.

Which TWO claims from Passage B are supported with reasons or evidence?

- A) Longer workdays could increase fatigue and reduce accuracy.
- B) Rotating on-call staff could confuse client responsibility.
- C) A four-day week would guarantee higher profits immediately.
- D) Employees never experience interruptions during the current schedule.
- E) Clients do not care when questions are answered.

GED-RLA11-041

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about the four-day workweek.

Which statement from Passage A directly addresses the risk of making a permanent change too quickly?

- A) “The accounting firm should test a four-day workweek for three months during its slower season.”
- B) “The goal is not to reduce responsibility.”
- C) “Some employees say they lose time restarting tasks after frequent interruptions.”
- D) “Longer blocks of focused work may help them complete reports and reviews more efficiently.”

GED-RLA11-042

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about the four-day workweek.

Which statement is a supported inference from both passages?

- A) Both authors want the firm to improve work quality, but they disagree about whether a schedule pilot is the right method.
- B) Both authors think client service does not matter.
- C) Both authors argue that accounting work requires no concentration.
- D) Both authors believe training should be canceled.

GED-RLA11-043

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about the four-day workweek.

Which additional evidence would most help evaluate both arguments?

- A) Data from similar firms on productivity, error rates, client response times, and employee satisfaction during four-day pilots
- B) A list of office furniture purchased last year
- C) A history of accounting before computers
- D) A survey asking employees their favorite lunch foods

GED-RLA11-044

Prompt:

Which choice best combines the sentences without changing their meaning?

The firm sent a memo. The memo explained the pilot schedule.

- A) The firm sent a memo that explained the pilot schedule.
- B) The memo sent the firm and explained the pilot schedule.
- C) Explaining the firm, the pilot schedule sent a memo.
- D) The firm sent, and the pilot schedule explained the memo.

GED-RLA11-046

Section: RLA

Type: mcq

Category: Grammar and Language

Prompt:

Which sentence uses an apostrophe correctly?

- A) The employee's badge was scanned before the permit was issued.
- B) The employees badge was scanned before the permit was issued.
- C) The employees' badge's was scanned before the permit was issued.
- D) The employee badges' was scanned before the permit was issued.

GED-RLA11-ER

Section: RLA

Type: essay

Category: Extended Response

Prompt:

Read both passages. Write an evidence-based essay of 300–500 words explaining which position is better supported. Use evidence from both passages. Maintain a formal tone and organize your response clearly.

Passage A:

Pay Employees for Required Training Time

Employers should pay employees for time spent completing required training. If a company requires workers to attend a course, watch a training module, renew a certification, or complete safety instruction, that time is part of the job. Employees should not have to give up unpaid evenings or weekends to meet requirements that benefit the workplace.

Paid training time promotes fairness. Hourly employees may have second jobs, childcare responsibilities, transportation limits, or school schedules. When required training is unpaid, the real cost is shifted onto workers. Some may delay completing training because they cannot afford the time. Others may rush through important material because they are trying to finish outside regular hours.

Paying for training can also help employers. Workers who complete training during scheduled time may be more focused and more likely to ask questions. Managers can track completion accurately and make sure everyone receives the same information. If the training is important enough to require, it is important enough to support properly.

Employers may worry about cost, but training is already an investment in safe and effective work. Paying employees for required training recognizes that investment honestly. Optional classes or personal career courses may be different, but mandatory job training should be treated as work time.

Passage B:

Allow Flexible Unpaid Training Options

Employers should not be required to pay for every hour employees spend on training. Many companies already provide paid training for essential tasks, but some required modules are short, self-paced, and easy to complete from home. Requiring all such time to be paid may create scheduling problems and reduce flexibility for both employers and workers.

Some employees prefer to complete brief training modules when it is convenient for them rather than stay late or attend a scheduled session. A worker might choose to finish a twenty-minute update after dinner instead of coming to work early. If every training task must be paid and scheduled, employers may require workers to complete modules only on site, which may be less convenient.

Cost is also a real concern for small businesses. Paying every employee for every short online training update, plus tracking the exact time, can create administrative burdens. These costs may reduce the number of optional development opportunities a company can offer.

A better policy would distinguish between major required training and brief updates. Employers should pay for long courses, certifications, and safety instruction that require significant time. For short refresher modules, flexible unpaid completion may be reasonable as long as deadlines are clear and employees are not overloaded.

Writing Task:

Which passage presents the better-supported argument about whether employers should pay employees for required training time? Write an essay explaining your position. Use evidence from both passages to support your analysis.

Rubric Guidance:

- Analyze which argument is better supported.
- Use relevant evidence from both passages.
- Explain why the evidence supports your claim.
- Address weaknesses or limitations in the less-supported argument.
- Organize ideas logically.
- Use clear sentence structure, grammar, and formal language.

PART B — ANSWER KEY + EXPLANATIONS

GED-RLA11-001 — Correct: A — Correct Answer: A weather balloon project helped students understand how measurements are used to study weather. — Explanation: The passage shows students collecting weather data, graphing it, and connecting it to forecasts.

GED-RLA11-002 — Correct: A — Correct Answer: To collect and interpret weather data — Explanation: Mr. Sato explains that the launch is only part of the larger goal of collecting and interpreting data.

GED-RLA11-003 — Correct: A,B — Correct Answer: Air pressure | Humidity — Explanation: The instrument box measured air pressure, humidity, temperature, and altitude.

GED-RLA11-004 — Correct: A — Correct Answer: Air temperature does not always change in a simple pattern as altitude increases. — Explanation: The temperature inversion shows a layer where air became warmer instead of continuing to cool.

GED-RLA11-005 — Correct: D1=careful measurements and records — Correct Answer: D1=careful measurements and records — Explanation: In context, observations are measurements and records used to build forecasts.

GED-RLA11-006 — Correct: T1=A; T2=B; T3=C — Correct Answer: T1=The box measured temperature, air pressure, humidity, and altitude.; T2=The data showed a brief layer where the air became warmer.; T3=A tracking signal helped students find the box in a cornfield. — Explanation: Each tile matches the requested evidence.

GED-RLA11-007 — Correct: A — Correct Answer: To explain when and how representatives should escalate repeated unresolved customer issues — Explanation: The document describes the form and process for repeated unresolved customer calls.

GED-RLA11-008 — Correct: A — Correct Answer: When a customer has called about the same unresolved issue three or more times within seven days — Explanation: This is the condition that triggers the escalation form.

GED-RLA11-009 — Correct: A,B — Correct Answer: The customer name | The best callback window — Explanation: The form requires both the customer name and the best callback window.

GED-RLA11-010 — Correct: A — Correct Answer: Add new information to the existing ticket and mark it for team lead review. — Explanation: The document says not to create a duplicate ticket when an earlier ticket is still open.

GED-RLA11-011 — Correct: B — Correct Answer: “The form is designed to prevent repeated calls from being treated as separate, unrelated problems.” — Explanation: This sentence explains why the procedure exists.

GED-RLA11-012 — Correct: A — Correct Answer: Employers should consider voluntary workplace English classes because they can support communication and advancement. — Explanation: The author argues that voluntary classes can help communication, confidence, and career growth.

GED-RLA11-013 — Correct: A — Correct Answer: More employees applied for team leader training after one manufacturer offered classes. — Explanation: This evidence directly connects English classes to advancement opportunities.

GED-RLA11-014 — Correct: A,B — Correct Answer: Classes should be voluntary. | Classes should be free. — Explanation: The author recommends free and voluntary classes as part of respectful design.

GED-RLA11-015 — Correct: A — Correct Answer: By comparing language classes to other employer investments in communication — Explanation: The author argues that employers already support communication through manuals, videos, and meetings.

GED-RLA11-016 — Correct: D1=A worker survey found that many employees wanted to apply for higher positions but felt unsure about completing written applications in English. — Correct Answer: D1=A worker survey found that many employees wanted to apply for higher positions but felt unsure about completing written applications in English. — Explanation: This evidence strengthens the claim that English practice could support advancement.

GED-RLA11-017 — Correct: A — Correct Answer: Some workers want additional English practice to help them communicate and pursue opportunities. — Explanation: The argument depends on the idea that some workers would benefit from and want the classes.

GED-RLA11-018 — Correct: A — Correct Answer: Sofia must overcome her fear of making a visible mistake while completing a jacket hem. — Explanation: The excerpt focuses on Sofia's hesitation and her effort to complete a difficult visible task.

GED-RLA11-019 — Correct: A — Correct Answer: She believes a jacket hem makes mistakes easy to see. — Explanation: Sofia thinks sleeve mistakes can be hidden, but jacket hems sit in plain sight.

GED-RLA11-020 — Correct: A — Correct Answer: Careful work requires both accuracy and confidence. — Explanation: Mrs. Patel tells Sofia not to guess but also not to work from fear.

GED-RLA11-021 — Correct: A,B — Correct Answer: She measures the jacket again. | She hangs the jacket on the form to check how the fabric falls. — Explanation: These details show Sofia checking her work carefully.

GED-RLA11-022 — Correct: A — Correct Answer: She begins to see difficult tasks as skills she can develop. — Explanation: Sofia starts to view the jackets as work she can learn rather than as warnings.

GED-RLA11-023 — Correct: T1=A; T2=B; T3=C — Correct Answer: T1=Sofia sees her chalk line and hesitates.; T2=Mrs. Patel says, "Measure, pin, check, stitch."; T3=The customer says the jacket is exactly right. — Explanation: The tiles show uncertainty, guidance, and success.

GED-RLA11-024 — Correct: A — Correct Answer: A pay stub helps workers understand earnings, deductions, totals, and possible errors. — Explanation: The passage explains gross pay, net pay, deductions, year-to-date totals, and error checking.

GED-RLA11-025 — Correct: A — Correct Answer: The amount earned before deductions — Explanation: The passage defines gross pay as the amount earned before deductions.

GED-RLA11-026 — Correct: A — Correct Answer: It shows totals from the beginning of the year through the current pay period. — Explanation: The year-to-date column shows cumulative totals for the year so far.

GED-RLA11-027 — Correct: C — Correct Answer: "Reviewing each stub soon after payday makes it easier to correct mistakes while records are fresh." — Explanation: This sentence directly supports prompt review of pay stubs.

GED-RLA11-028 — Correct: A — Correct Answer: It defines pay stub terms, explains useful sections, and gives advice about checking for errors. — Explanation: The passage is organized around definitions, pay stub sections, and practical advice.

GED-RLA11-029 — Correct: D1=Therefore; D2=will be — Correct Answer: D1=Therefore; D2=will be — Explanation: “Therefore” shows the result of the expiration date, and “will be open” is grammatically correct.

GED-RLA11-030 — Correct: A — Correct Answer: Employees with temporary vehicles should ask security for a short-term pass. — Explanation: This sentence is concise and keeps the original meaning.

GED-RLA11-031 — Correct: C — Correct Answer: The guards who check the garage arrive before seven. — Explanation: The plural subject “guards” correctly takes the plural verb “arrive.”

GED-RLA11-032 — Correct: B — Correct Answer: Jordan emailed Casey after the meeting, and Jordan attached the permit form. — Explanation: Repeating “Jordan” makes clear who attached the form.

GED-RLA11-033 — Correct: D1=Therefore — Correct Answer: D1=Therefore — Explanation: The extra permit station was added because a long line was expected.

GED-RLA11-034 — Correct: A — Correct Answer: The garage opens at six; however, permits are issued after eight. — Explanation: A semicolon before “however” and a comma after it correctly connect the clauses.

GED-RLA11-035 — Correct: C — Correct Answer: The security guard placed the permit on the windshield. — Explanation: This is the only complete sentence.

GED-RLA11-036 — Correct: C — Correct Answer: The clerk checked the badge and printed the permit yesterday. — Explanation: Both verbs are in past tense and match “yesterday.”

GED-RLA11-037 — Correct: B — Correct Answer: The form asks for vehicle make, license plate number, and employment status. — Explanation: The list uses parallel noun phrases.

GED-RLA11-038 — Correct: A — Correct Answer: Passage A supports testing a four-day workweek, while Passage B argues the five-day schedule better protects accuracy and client service. — Explanation: The passages disagree about whether a four-day pilot is worth testing.

GED-RLA11-039 — Correct: A — Correct Answer: A three-month test would allow managers to compare productivity, response times, overtime, and employee feedback. — Explanation: This evidence supports Passage A’s argument for a limited evidence-gathering pilot.

GED-RLA11-040 — Correct: A,B — Correct Answer: Longer workdays could increase fatigue and reduce accuracy. | Rotating on-call staff could confuse client responsibility. — Explanation: Passage B supports both claims with concerns about accuracy and client service.

GED-RLA11-041 — Correct: A — Correct Answer: “The accounting firm should test a four-day workweek for three months during its slower season.” — Explanation: A temporary pilot directly addresses the risk of making a permanent change too quickly.

GED-RLA11-042 — Correct: A — Correct Answer: Both authors want the firm to improve work quality, but they disagree about whether a schedule pilot is the right method. — Explanation: Passage A supports a pilot, while Passage B supports addressing interruptions without changing the schedule.

GED-RLA11-043 — Correct: A — Correct Answer: Data from similar firms on productivity, error rates, client response times, and employee satisfaction during four-day pilots — Explanation: This evidence would help evaluate both productivity benefits and risks.

GED-RLA11-044 — Correct: B — Correct Answer: Monique handed the permit instructions printed on bright yellow paper to each employee. — Explanation: This revision places the modifier next to “permit instructions,” the item printed on yellow paper.

GED-RLA11-045 — Correct: A — Correct Answer: The firm sent a memo that explained the pilot schedule. — Explanation: This sentence clearly combines the ideas without changing the meaning.

GED-RLA11-046 — Correct: A — Correct Answer: The employee’s badge was scanned before the permit was issued. — Explanation: The apostrophe correctly shows that the badge belongs to one employee.

GED-RLA11-ER — Correct: Not auto-scored — Correct Answer: Not auto-scored — Explanation: Extended Response answers should be reviewed using the rubric guidance. Strong responses make a clear claim, use evidence from both passages, explain why one argument is better supported, and maintain formal organization and language.
