

GED RLA Practice Test 14

PART A — QUESTIONS

GED-RLA14-001

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the passage and answer the question.

The Sediment Core

When Dr. Lena Ortiz pushed a narrow tube into the marsh mud, the students watching from the boardwalk seemed disappointed. They had expected nets, boats, or dramatic wildlife. Instead, Ortiz lifted a dark cylinder of wet sediment from the tube and placed it carefully into a labeled tray.

“This is a timeline,” she said.

A sediment core forms as layers of soil, plant material, pollen, ash, and tiny shells settle over time. The newest material is usually near the top, while older layers are deeper. By studying these layers, scientists can learn how a marsh has changed. Some layers may show past floods. Others may show periods when saltwater moved farther inland. Pollen can suggest what plants once grew nearby.

Ortiz’s team was studying whether the marsh had been keeping pace with rising water. A healthy marsh can sometimes build upward as plants trap sediment and leave behind roots. But if water rises faster than the marsh can grow, plants may die and open water may replace habitat. The core helped the team compare recent sediment growth with older patterns.

The students later examined a sliced section of the core in the lab. A thin pale band showed where a storm had pushed sand across the marsh years earlier. Darker layers contained plant roots, suggesting stronger marsh growth. The core was not exciting in the usual sense, but it held evidence that could not be seen from the boardwalk.

What is the main idea of the passage?

- A) A sediment core can help scientists study how a marsh has changed over time.
- B) Scientists use sediment cores only to collect dramatic wildlife.
- C) The marsh study proved that rising water has no effect on plants.
- D) Students learned that marsh mud contains no useful information.

GED-RLA14-002

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Sediment Core.”

Why does Dr. Ortiz call the sediment core “a timeline”?

- A) Its layers can show changes that occurred over time.
- B) It lists the students’ class schedule.

- C) It records exact conversations on the boardwalk.
- D) It shows only the current water temperature.

GED-RLA14-003

Section: RLA

Type: multi_select

Category: Reading for Meaning

Prompt:

Select TWO answers.

Refer to “The Sediment Core.”

Which TWO types of evidence can be found in a sediment core?

- A) Pollen from plants that once grew nearby
- B) Sand layers from past storms
- C) Printed maps of the boardwalk
- D) Wildlife photographs taken by students
- E) Boat schedules from the marsh

GED-RLA14-004

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Sediment Core.”

What can be inferred from the statement that a healthy marsh can sometimes “build upward”?

- A) Some marshes can add material fast enough to respond to changing water levels.
- B) Marshes rise because students lift them with tubes.
- C) Marsh plants grow only when there is no sediment.
- D) A marsh becomes healthier when plant roots disappear.

GED-RLA14-005

Section: RLA

Type: dropdown

Category: Reading for Meaning

Prompt:

Refer to “The Sediment Core.”

In the sentence “The core helped the team compare recent sediment growth with older patterns,” patterns most nearly means [D1].

Dropdowns:

D1) repeated conditions or trends | pieces of clothing design | guesses without observations

GED-RLA14-006

Section: RLA

Type: drag_drop

Category: Reading for Meaning

Prompt:

Refer to “The Sediment Core.”

Match each target with the correct tile.

Tiles:

- A) Newer material is usually near the top, while older layers are deeper.
- B) A thin pale band showed where a storm had pushed sand across the marsh.
- C) Darker layers contained plant roots.
- D) The students used the core to measure parking spaces.

Targets:

- T1) Evidence that a core records time order
- T2) Evidence of a past storm event
- T3) Evidence suggesting marsh plant growth

GED-RLA14-007

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the workplace document and answer the question.

Travel Expense Reimbursement Procedure

To: Sales, Training, and Field Service Employees

From: Finance Department

Subject: Travel Expense Reimbursement Procedure

Beginning June 2, all travel expense requests must be submitted within ten business days after the trip ends. This procedure applies to mileage, hotel stays, meals, parking, tolls, baggage fees, and approved ride services.

Employees must attach receipts for expenses over \$15. For mileage, employees should list the starting location, destination, business purpose, and total miles driven. Do not combine personal travel with business mileage. If a trip includes both personal and business stops, record only the business portion and explain it briefly in the notes section.

Meal reimbursements must follow the daily limit listed in the employee handbook. Alcohol, entertainment, traffic fines, and personal purchases are not reimbursable. If a receipt includes both reimbursable and non-reimbursable items, circle the business expense and write the adjusted amount clearly.

Incomplete requests will be returned for correction. The finance department reviews requests every Tuesday and Friday. Submitting accurate information helps reimbursements move faster and reduces follow-up emails.

What is the main purpose of the document?

- A) To explain how employees should submit travel expenses for reimbursement
- B) To announce that employees may combine personal travel with business mileage
- C) To require finance staff to reimburse all purchases without review
- D) To cancel mileage reimbursement for all employees

GED-RLA14-008

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to "Travel Expense Reimbursement Procedure."

When must travel expense requests be submitted?

- A) Within ten business days after the trip ends
- B) Before the employee is assigned any trip
- C) Only at the end of the calendar year
- D) After the finance department sends three reminders

GED-RLA14-009

Section: RLA

Type: multi_select

Category: Reading for Meaning

Prompt:

Select TWO answers.

Refer to "Travel Expense Reimbursement Procedure."

Which TWO items are not reimbursable?

- A) Alcohol
- B) Traffic fines
- C) Approved business mileage
- D) Parking for a business meeting
- E) Hotel stays for approved travel

GED-RLA14-010

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to "Travel Expense Reimbursement Procedure."

What should an employee do if a receipt includes both business and personal items?

- A) Circle the business expense and write the adjusted amount clearly.
- B) Submit the entire receipt without explanation.
- C) Remove the receipt from the request.
- D) Ask finance to guess which items were business expenses.

GED-RLA14-011

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to "Travel Expense Reimbursement Procedure."

Which sentence best explains why accurate requests matter?

- A) "Beginning June 2, all travel expense requests must be submitted within ten business days after the trip ends."
- B) "This procedure applies to mileage, hotel stays, meals, parking, tolls, baggage fees, and approved ride services."
- C) "Submitting accurate information helps reimbursements move faster and reduces follow-up

emails.”

D) “The finance department reviews requests every Tuesday and Friday.”

GED-RLA14-012

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Read the argument and answer the question.

Use Plain-Language Insurance Summaries

Health insurance companies should provide plain-language summaries after they process medical claims. Many customers receive an explanation of benefits filled with terms such as deductible, coinsurance, allowed amount, adjustment, and out-of-pocket maximum. These terms may be accurate, but they can be difficult to understand when a person is trying to figure out what has been paid and what is still owed.

A plain-language summary would not replace the official document. It would appear at the beginning and explain the claim in ordinary wording: what service was billed, what the insurer paid, what the customer may owe, and what action, if any, the customer should take. This would help people spot possible billing errors and avoid confusing an explanation of benefits with an actual bill.

Clearer summaries could also reduce customer service calls. When customers cannot understand a document, they often call the insurer, the clinic, or both. A summary that explains the main points could save time for customers and staff.

Some insurers may argue that medical billing is too complex to simplify. It is true that details matter, and official documents must remain precise. But precision does not require confusion. A short summary can guide readers to the key information while leaving full details available for review.

What is the author’s main claim?

- A) Insurance companies should add plain-language summaries to help customers understand processed claims.
- B) Insurance companies should remove all official claim documents.
- C) Customers should ignore medical bills if the wording is difficult.
- D) Medical billing should be explained only through phone calls.

GED-RLA14-013

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Use Plain-Language Insurance Summaries.”

Which evidence best supports the claim that summaries could reduce confusion?

- A) Current documents often include terms such as deductible, coinsurance, and allowed amount.
- B) Official documents must remain precise.

- C) Insurance companies process medical claims.
- D) Some customers call clinics for appointment times.

GED-RLA14-014

Section: RLA

Type: multi_select

Category: Identifying and Creating Arguments

Prompt:

Select TWO answers.

Refer to “Use Plain-Language Insurance Summaries.”

Which TWO pieces of information should the plain-language summary include?

- A) What the insurer paid
- B) What the customer may owe
- C) The customer’s favorite clinic
- D) The doctor’s personal schedule
- E) Unrelated health advice

GED-RLA14-015

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Use Plain-Language Insurance Summaries.”

How does the author respond to the idea that medical billing is too complex to simplify?

- A) By arguing that a short summary can guide readers while full details remain available
- B) By saying official documents should no longer be accurate
- C) By claiming that customers never need billing details
- D) By suggesting that insurers stop processing claims

GED-RLA14-016

Section: RLA

Type: dropdown

Category: Identifying and Creating Arguments

Prompt:

Refer to “Use Plain-Language Insurance Summaries.”

Choose the sentence that would best strengthen the author’s argument if added after paragraph 3:

[D1]

Dropdowns:

D1) In a customer survey, many callers said they contacted support because they could not tell whether the document was a bill. | The insurance company’s logo appears in the upper left corner of the document. | Some claim forms are printed on white paper.

GED-RLA14-017

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to “Use Plain-Language Insurance Summaries.”

Which assumption is most important to the author's argument?

- A) Customers can make better decisions when key claim information is explained clearly.
- B) Official insurance documents should contain no detailed information.
- C) All medical claims are simple enough to fit in one sentence.
- D) Customer service calls are never related to document confusion.

GED-RLA14-018

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the literary excerpt and answer the question.

The Last Row

Marisol had planted lettuce for six seasons, but always by someone else's plan. Her father marked the rows, her aunt chose the seed packets, and Marisol followed behind with a trowel. This spring, her father handed her the notebook where the family recorded planting dates, weather, and harvest notes.

"You choose the last row," he said.

The last row was narrow and uneven because the fence curved near the old pear tree. It was not the best place in the garden, but it was hers to decide. Marisol turned the notebook pages slowly. Last year, spinach had bolted early in that row. The year before, radishes had grown well because they were ready before the shade became too heavy.

She wanted to choose something impressive, something that would make her father nod before the first leaves appeared. Instead, she wrote "radishes" in the notebook and added the date.

For two weeks, the row looked like nothing. Then small green loops pushed through the soil. Marisol thinned the seedlings, watered carefully, and pulled weeds before they crowded the roots. When she finally lifted the first radish, it was round, red, and smaller than the pictures on the seed packet.

Her father rinsed it under the outdoor faucet and cut it in half. "Good choice for that row," he said.

Marisol looked at the curved fence, the pear tree shade, and the notebook open on the bench. The garden suddenly seemed less like a place she helped in and more like a place she could learn to read.

What is the main conflict in the excerpt?

- A) Marisol must choose and care for a garden row using her own judgment.
- B) Marisol wants to remove the pear tree before planting.
- C) Marisol argues with her father about closing the garden.
- D) Marisol refuses to write anything in the family notebook.

GED-RLA14-019

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Last Row.”

Why does Marisol choose radishes for the last row?

- A) Past notes show radishes grew well there before the shade became heavy.
- B) Her aunt tells her that radishes are the only allowed crop.
- C) The seed packet says radishes never need sunlight.
- D) Her father marks the row and writes the choice for her.

GED-RLA14-020

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Last Row.”

What does the family notebook represent in the excerpt?

- A) A record of experience that helps Marisol make a thoughtful decision
- B) A book of unrelated stories about the pear tree
- C) A rule that prevents Marisol from making any choice
- D) A list of vegetables that failed in every row

GED-RLA14-021

Section: RLA

Type: multi_select

Category: Reading for Meaning

Prompt:

Select TWO answers.

Refer to “The Last Row.”

Which TWO details show Marisol caring for the row after planting?

- A) She thins the seedlings.
- B) She pulls weeds before they crowd the roots.
- C) She lets the row dry out for two weeks.
- D) She closes the notebook without reading it.
- E) She removes the fence near the pear tree.

GED-RLA14-022

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “The Last Row.”

What does the final sentence suggest?

- A) Marisol begins to understand the garden as something she can study and make decisions about.
- B) Marisol decides that gardening records are useless.
- C) Marisol believes the garden should be planted without planning.
- D) Marisol wants to stop helping after harvesting one radish.

GED-RLA14-023

Section: RLA

Type: drag_drop

Category: Reading for Meaning

Prompt:

Refer to “The Last Row.”

Match each target with the correct tile.

Tiles:

A) Marisol reads that radishes had grown well in the row before.

B) She writes “radishes” in the notebook.

C) Her father says, “Good choice for that row.”

D) Marisol plants lettuce in every row without thinking.

Targets:

T1) Evidence Marisol uses past information

T2) Evidence Marisol makes the decision herself

T3) Evidence her decision is confirmed as appropriate

GED-RLA14-024

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the informational passage and answer the question.

Understanding a Mortgage Escrow Statement

A mortgage escrow statement explains how a lender used money collected from a homeowner to pay property taxes and insurance. Many homeowners pay a portion of these costs each month as part of their mortgage payment. The lender holds the money in an escrow account and then pays bills when they are due.

The statement usually lists deposits into the account, payments made from the account, the projected balance, and any shortage or surplus. A shortage can occur if property taxes or insurance premiums rise and the monthly escrow collection was not enough. A surplus can occur if the lender collected more than needed.

Homeowners should review the statement instead of assuming the new payment is wrong. A higher monthly payment may reflect higher taxes, higher insurance premiums, or repayment of an escrow shortage. If the numbers seem unclear, the homeowner can compare the statement with tax bills, insurance notices, and previous mortgage statements.

An escrow statement does not control the amount of property tax or insurance charged. It shows how the lender collected and paid those costs. Understanding the statement can help homeowners plan for changes, ask better questions, and avoid being surprised by a new monthly payment.

What is the main idea of the passage?

A) A mortgage escrow statement helps homeowners understand tax and insurance payments collected through a mortgage.

B) A mortgage escrow statement decides whether property taxes should exist.

- C) Homeowners should ignore escrow shortages and surpluses.
- D) A lender uses escrow money only for home repairs.

GED-RLA14-025

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “Understanding a Mortgage Escrow Statement.”

What is an escrow account used for in the passage?

- A) Holding money collected to pay property taxes and insurance
- B) Recording the homeowner’s grocery expenses
- C) Setting the value of every house in the neighborhood
- D) Replacing the homeowner’s insurance policy

GED-RLA14-026

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “Understanding a Mortgage Escrow Statement.”

Why might a homeowner’s monthly mortgage payment increase?

- A) Property taxes or insurance premiums may rise, or there may be an escrow shortage.
- B) The lender may stop paying tax and insurance bills.
- C) The statement may remove all deposits from the account.
- D) A surplus always causes monthly payments to rise.

GED-RLA14-027

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “Understanding a Mortgage Escrow Statement.”

Which sentence best supports the idea that the escrow statement shows payment activity but does not set tax or insurance charges?

- A) “A mortgage escrow statement explains how a lender used money collected from a homeowner to pay property taxes and insurance.”
- B) “The statement usually lists deposits into the account, payments made from the account, the projected balance, and any shortage or surplus.”
- C) “An escrow statement does not control the amount of property tax or insurance charged.”
- D) “Homeowners should review the statement instead of assuming the new payment is wrong.”

GED-RLA14-028

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Refer to “Understanding a Mortgage Escrow Statement.”

How is the passage mainly organized?

- A) It explains what an escrow statement is, identifies key parts, and gives advice for reviewing it.
- B) It tells a story about a homeowner selling a house.
- C) It compares mortgage companies by customer ratings.
- D) It argues that homeowners should stop paying insurance.

GED-RLA14-029

Type: dropdown

Category: Grammar and Language

Prompt:

Read the editing passage and choose the best words for the blanks.

Quarterly Inventory Meeting

(1) The purchasing team will hold a quarterly inventory meeting next Wednesday. (2) Department representatives should bring updated counts for high-use supplies. (3) The team will compare current inventory with projected needs for the next three months. (4) [D1], the purchasing manager can adjust upcoming orders before shortages occur. (5) The final order list [D2] reviewed by the finance director before any purchases are made. (6) Representatives should note any unusual changes in supply use.

Dropdowns:

D1) In this way | However | In contrast

D2) will be | will have | will being

GED-RLA14-030

Section: RLA

Type: mcq

Category: Grammar and Language

Prompt:

Refer to “Quarterly Inventory Meeting.”

Which revision of sentence 6 is most concise while keeping the meaning?

- A) Representatives should note any unusual changes in supply use.
- B) Representatives should make notes about changes in supply use that are unusual.
- C) Any unusual changes in the use of supplies should be noted by representatives.
- D) Representatives, who represent departments, should note changes that are unusual in supply usage.

GED-RLA14-031

Section: RLA

Type: mcq

Category: Grammar and Language

Prompt:

Which sentence uses correct subject-verb agreement?

- A) The reports on the conference table needs review.
- B) The list of supply counts are ready for the meeting.
- C) The representatives who manage supply records attend the meeting.
- D) The folder of purchase requests have been misplaced.

Prompt:

Which sentence uses parallel structure?

- A) The meeting covers supply counts, projected needs, and whether prices changed.
- B) The meeting covers supply counts, projected needs, and price changes.
- C) The meeting covers counting supplies, projected needs, and to change prices.
- D) The meeting covers supply counts, needs that are projected, and changing in price.

GED-RLA14-038

Section: RLA

Type: mcq

Category: Reading for Meaning

Prompt:

Read the paired passages and answer the question.

Passage A: Use Peer Review Before Major Reports Leave the Firm

A consulting firm should require peer review before major reports are sent to clients. Peer review means that another qualified employee checks the report for accuracy, logic, clarity, and missing information. Consultants often work under deadlines, and even careful writers can overlook errors in charts, assumptions, or wording. A second reader can catch problems before they reach the client.

Peer review would also improve consistency. Clients should not receive reports that vary widely depending on which consultant prepared them. A reviewer can check whether the report follows the firm's standards for evidence, formatting, and recommendations. This process protects the client and the firm's reputation.

The requirement does not need to delay every project. The firm could limit mandatory peer review to high-value reports, regulatory submissions, or reports that include complex data. A clear checklist and deadline would keep the process efficient. Spending an extra hour on review is better than sending a report with errors that require an apology or correction later.

Passage B: Keep Peer Review Optional

A consulting firm should keep peer review optional rather than requiring it for major reports. Consultants are already responsible for checking their own work, and managers review many reports before they are sent. Adding another required step could slow projects, especially when clients need quick answers.

Mandatory peer review may also create unclear responsibility. If a report contains an error after review, who is accountable: the writer, reviewer, or manager? Too many checkpoints can make employees assume someone else will catch problems. A stronger approach is to train consultants to use better self-checking methods and to hold project leads responsible for final quality.

Optional peer review is still useful. Consultants should ask for a second reader when a report is unusually complex, when data are uncertain, or when the writer is new to the topic. But requiring review for all major reports may waste time on documents that experienced consultants can handle accurately. The firm should encourage judgment, not create another automatic step.

What is the central difference between the two passages?

- A) Passage A supports required peer review for certain major reports, while Passage B argues peer review should remain optional.
- B) Passage A argues that clients should never receive reports, while Passage B argues that reports should contain errors.
- C) Passage A supports removing managers from projects, while Passage B supports ending self-checking.
- D) Passage A focuses on gardening, while Passage B focuses on mortgage statements.

GED-RLA14-039

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about peer review.

Which evidence most directly supports Passage A's argument?

- A) A second reader can catch errors in charts, assumptions, or wording before the report reaches the client.
- B) Managers already review many reports before they are sent.
- C) Too many checkpoints can make responsibility unclear.
- D) Consultants should ask for help when data are uncertain.

GED-RLA14-040

Section: RLA

Type: multi_select

Category: Identifying and Creating Arguments

Prompt:

Select TWO answers.

Refer to the paired passages about peer review.

Which TWO claims from Passage B are supported with reasons or evidence?

- A) Required peer review could slow projects when clients need quick answers.
- B) Too many checkpoints could make responsibility unclear.
- C) Peer review makes every report less accurate.
- D) Consultants never work under deadlines.
- E) Managers should stop reviewing reports entirely.

GED-RLA14-041

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about peer review.

Which statement from Passage A directly addresses concerns about delay?

- A) "Peer review means that another qualified employee checks the report."
- B) "Clients should not receive reports that vary widely depending on which consultant prepared them."
- C) "The firm could limit mandatory peer review to high-value reports, regulatory submissions, or reports that include complex data."
- D) "A second reader can catch problems before they reach the client."

GED-RLA14-042

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about peer review.

Which statement is a supported inference from both passages?

- A) Both authors value accurate reports, but they disagree about whether required peer review is the best way to ensure quality.
- B) Both authors believe report accuracy is unimportant.
- C) Both authors argue that clients should review reports instead of the firm.
- D) Both authors think consultants should never ask for another reader.

GED-RLA14-043

Section: RLA

Type: mcq

Category: Identifying and Creating Arguments

Prompt:

Refer to the paired passages about peer review.

Which additional evidence would most help evaluate both arguments?

- A) Data on report error rates, review time, client deadlines, and corrections before and after required peer review
- B) A list of office plants near the consulting firm's lobby
- C) A history of report covers used by the firm
- D) A survey asking consultants which font they prefer

Prompt:

Which sentence uses an apostrophe correctly?

- A) The director's approval was required before the order was placed.
- B) The directors approval was required before the order was placed.
- C) The directors' approval's was required before the order was placed.
- D) The director approvals' was required before the order was placed.

GED-RLA14-ER

Section: RLA

Type: essay

Category: Extended Response

Prompt:

Read both passages. Write an evidence-based essay of 300–500 words explaining which position is better supported. Use evidence from both passages. Maintain a formal tone and organize your response clearly.

Passage A:

Require Clear Total Prices Before Online Checkout

Online retailers should be required to show the full total price before customers begin the final checkout steps. Some websites advertise a low product or ticket price but reveal required fees, handling charges, or service costs only after customers have entered personal information or spent time selecting options. This practice makes comparison shopping harder and can pressure customers to finish a purchase they might not have started if the real price had been clear.

Clear total pricing would support fair competition. A company that includes required fees upfront may appear more expensive than a competitor that hides them until later. Customers deserve to compare actual prices, not partial prices. Showing the full total earlier would reward businesses that are honest from the beginning.

Retailers could still list taxes, shipping choices, or optional add-ons separately when those amounts depend on location or customer preference. The rule should focus on required fees that the seller already knows. If a fee is unavoidable, it should not be treated as a surprise.

This requirement would not tell companies what to charge. It would simply require them to present prices clearly. Customers can make better decisions when the real cost is visible before they invest time and personal information.

Passage B:

Do Not Overregulate Online Price Displays

Lawmakers should be cautious about requiring one exact method for showing online prices. Online purchases vary widely. A hotel room, event ticket, subscription, meal delivery, and furniture order may all involve different taxes, local charges, shipping options, discounts, memberships, or optional services. Requiring a full total too early may be difficult when some costs depend on customer choices.

Retailers also need flexibility to explain prices in ways that fit their products. A website may show a base price first because customers still need to choose size, delivery speed, location, or service level. If the law is written too broadly, businesses may face penalties for normal price changes that occur during a customer's selections.

There are better ways to protect customers. Regulators can require that fees be disclosed clearly before payment, prohibit misleading advertisements, and enforce rules against fake discounts. Consumer education can also help shoppers look for shipping, service, and subscription charges before agreeing to buy.

Customers need accurate information, but a strict upfront total-price requirement may create confusion for purchases where the final amount cannot be known immediately.

Writing Task:

Which passage presents the better-supported argument about whether online retailers should be required to show clear total prices before final checkout steps? Write an essay explaining your position. Use evidence from both passages to support your analysis.

Rubric Guidance:

- Analyze which argument is better supported.
- Use relevant evidence from both passages.
- Explain why the evidence supports your claim.
- Address weaknesses or limitations in the less-supported argument.
- Organize ideas logically.
- Use clear sentence structure, grammar, and formal language.

PART B — ANSWER KEY + EXPLANATIONS

GED-RLA14-001 — Correct: A — Correct Answer: A sediment core can help scientists study how a marsh has changed over time. — Explanation: The passage explains that sediment layers contain evidence of past storms, plant growth, and marsh change over time.

GED-RLA14-002 — Correct: A — Correct Answer: Its layers can show changes that occurred over time. — Explanation: A sediment core is like a timeline because newer and older layers preserve evidence of different periods.

GED-RLA14-003 — Correct: A,B — Correct Answer: Pollen from plants that once grew nearby | Sand layers from past storms — Explanation: The passage says pollen and storm-deposited sand can appear in sediment layers.

GED-RLA14-004 — Correct: A — Correct Answer: Some marshes can add material fast enough to respond to changing water levels. — Explanation: The passage explains that plants can trap sediment and leave roots behind, helping marshes build upward.

GED-RLA14-005 — Correct: D1=repeated conditions or trends — Correct Answer: D1=repeated conditions or trends — Explanation: In context, patterns means conditions or trends that appear in the sediment record.

GED-RLA14-006 — Correct: T1=A; T2=B; T3=C — Correct Answer: T1=Newer material is usually near the top, while older layers are deeper.; T2=A thin pale band showed where a storm had pushed sand across the marsh.; T3=Darker layers contained plant roots. — Explanation: Each tile provides evidence for the matching target.

GED-RLA14-007 — Correct: A — Correct Answer: To explain how employees should submit travel expenses for reimbursement — Explanation: The document explains what expenses are covered, what records are needed, and how to submit a request.

GED-RLA14-008 — Correct: A — Correct Answer: Within ten business days after the trip ends — Explanation: The document states that requests must be submitted within ten business days after a trip ends.

GED-RLA14-009 — Correct: A,B — Correct Answer: Alcohol | Traffic fines — Explanation: The procedure states that alcohol, entertainment, traffic fines, and personal purchases are not reimbursable.

GED-RLA14-010 — Correct: A — Correct Answer: Circle the business expense and write the adjusted amount clearly. — Explanation: This is the required action when a receipt includes both reimbursable and non-reimbursable items.

GED-RLA14-011 — Correct: C — Correct Answer: “Submitting accurate information helps reimbursements move faster and reduces follow-up emails.” — Explanation: This sentence explains why accurate expense requests matter.

GED-RLA14-012 — Correct: A — Correct Answer: Insurance companies should add plain-language summaries to help customers understand processed claims. — Explanation: The author argues that plain-language summaries would help customers understand what was paid and what they may owe.

GED-RLA14-013 — Correct: A — Correct Answer: Current documents often include terms such as deductible, coinsurance, and allowed amount. — Explanation: This evidence supports the claim that customers may struggle with technical wording.

GED-RLA14-014 — Correct: A,B — Correct Answer: What the insurer paid | What the customer may owe — Explanation: The passage says the summary should explain what the insurer paid and what the customer may owe.

GED-RLA14-015 — Correct: A — Correct Answer: By arguing that a short summary can guide readers while full details remain available — Explanation: The author acknowledges complexity but argues that a summary can coexist with precise official documents.

GED-RLA14-016 — Correct: D1=In a customer survey, many callers said they contacted support because they could not tell whether the document was a bill. — Correct Answer: D1=In a customer survey, many callers said they contacted support because they could not tell whether the document was a bill. — Explanation: This evidence strengthens the claim that confusing documents increase customer service calls.

GED-RLA14-017 — Correct: A — Correct Answer: Customers can make better decisions when key claim information is explained clearly. — Explanation: The argument depends on the idea that clearer information helps customers understand and act.

GED-RLA14-018 — Correct: A — Correct Answer: Marisol must choose and care for a garden row using her own judgment. — Explanation: The excerpt focuses on Marisol’s first responsibility for choosing and tending a row herself.

GED-RLA14-019 — Correct: A — Correct Answer: Past notes show radishes grew well there before the shade became heavy. — Explanation: Marisol uses the notebook’s past record to choose radishes for the difficult row.

GED-RLA14-020 — Correct: A — Correct Answer: A record of experience that helps Marisol make a thoughtful decision — Explanation: The notebook contains planting dates, weather, and harvest notes that guide Marisol’s choice.

GED-RLA14-021 — Correct: A,B — Correct Answer: She thins the seedlings. | She pulls weeds before they crowd the roots. — Explanation: These actions show Marisol taking care of the row after planting.

GED-RLA14-022 — Correct: A — Correct Answer: Marisol begins to understand the garden as something she can study and make decisions about. — Explanation: The final sentence shows that Marisol sees the garden as something she can learn to interpret.

GED-RLA14-023 — Correct: T1=A; T2=B; T3=C — Correct Answer: T1=Marisol reads that radishes had grown well in the row before.; T2=She writes “radishes” in the notebook.; T3=Her father says, “Good choice for that row.” — Explanation: The tiles show Marisol using past information, making her own decision, and receiving confirmation.

GED-RLA14-024 — Correct: A — Correct Answer: A mortgage escrow statement helps homeowners understand tax and insurance payments collected through a mortgage. — Explanation: The passage explains deposits, payments, shortages, surpluses, and payment changes in escrow accounts.

GED-RLA14-025 — Correct: A — Correct Answer: Holding money collected to pay property taxes and insurance — Explanation: The passage says the lender holds escrow money and pays tax and insurance bills when due.

GED-RLA14-026 — Correct: A — Correct Answer: Property taxes or insurance premiums may rise, or there may be an escrow shortage. — Explanation: These changes can cause the monthly mortgage payment to increase.

GED-RLA14-027 — Correct: C — Correct Answer: “An escrow statement does not control the amount of property tax or insurance charged.” — Explanation: This sentence directly states that the statement shows activity but does not set the charges.

GED-RLA14-028 — Correct: A — Correct Answer: It explains what an escrow statement is, identifies key parts, and gives advice for reviewing it. — Explanation: The passage defines the statement, describes its sections, and advises homeowners how to review changes.

GED-RLA14-029 — Correct: D1=In this way; D2=will be — Correct Answer: D1=In this way; D2=will be — Explanation: “In this way” shows how comparing inventory helps adjust orders, and “will be reviewed” is grammatically correct.

GED-RLA14-030 — Correct: A — Correct Answer: Representatives should note any unusual changes in supply use. — Explanation: This sentence is concise and keeps the meaning.

GED-RLA14-031 — Correct: C — Correct Answer: The representatives who manage supply records attend the meeting. — Explanation: The plural subject “representatives” correctly takes the plural verb “attend.”

GED-RLA14-032 — Correct: B — Correct Answer: Alexis called Robin after the meeting, and Robin revised the order list. — Explanation: Repeating “Robin” makes clear who revised the order list.

GED-RLA14-033 — Correct: D1=Therefore — Correct Answer: D1=Therefore — Explanation: “Therefore” shows that the team looked for alternatives because prices rose.

GED-RLA14-034 — Correct: A — Correct Answer: The order was due Friday: the manager submitted it Thursday afternoon. — Explanation: The colon correctly introduces an explanation or related result after a complete sentence.

GED-RLA14-035 — Correct: C — Correct Answer: The manager approved the final order before noon. — Explanation: This is the only complete sentence.

GED-RLA14-036 — Correct: C — Correct Answer: The assistant checked the count and updated the spreadsheet yesterday. — Explanation: Both verbs are in past tense and match “yesterday.”

GED-RLA14-037 — Correct: B — Correct Answer: The meeting covers supply counts, projected needs, and price changes. — Explanation: The list uses parallel noun phrases.

GED-RLA14-038 — Correct: A — Correct Answer: Passage A supports required peer review for certain major reports, while Passage B argues peer review should remain optional. — Explanation: Passage A supports a requirement for major reports; Passage B supports judgment-based optional review.

GED-RLA14-039 — Correct: A — Correct Answer: A second reader can catch errors in charts, assumptions, or wording before the report reaches the client. — Explanation: This evidence directly supports Passage A’s argument for peer review.

GED-RLA14-040 — Correct: A,B — Correct Answer: Required peer review could slow projects when clients need quick answers. | Too many checkpoints could make responsibility unclear. — Explanation: Passage B uses these points to argue against mandatory peer review.

GED-RLA14-041 — Correct: C — Correct Answer: “The firm could limit mandatory peer review to high-value reports, regulatory submissions, or reports that include complex data.” —

Explanation: This sentence addresses delay by limiting the requirement to selected reports.

GED-RLA14-042 — Correct: A — Correct Answer: Both authors value accurate reports, but they disagree about whether required peer review is the best way to ensure quality. — Explanation: Both passages focus on quality, but they recommend different methods.

GED-RLA14-043 — Correct: A — Correct Answer: Data on report error rates, review time, client deadlines, and corrections before and after required peer review — Explanation: This evidence would help evaluate both benefits and costs of required review.

GED-RLA14-044 — Correct: B — Correct Answer: Denise reviewed the inventory reports stacked beside the copier before the meeting. — Explanation: This revision places the modifier next to “inventory reports,” the items stacked beside the copier.

GED-RLA14-045 — Correct: A — Correct Answer: The analyst prepared a chart that compared monthly supply costs. — Explanation: This sentence combines the ideas clearly without changing the meaning.

GED-RLA14-046 — Correct: A — Correct Answer: The director’s approval was required before the order was placed. — Explanation: The apostrophe correctly shows that the approval belongs to one director.

GED-RLA14-ER — Correct: Not auto-scored — Correct Answer: Not auto-scored — Explanation: Extended Response answers should be reviewed using the rubric guidance. Strong responses make a clear claim, use evidence from both passages, explain why one argument is better supported, and maintain formal organization and language.
