

GED Social Studies Practice Test 13

PART A — QUESTIONS

GED-SOC13-001

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution requires the legislature to publish a five-year estimate before approving any new program that creates ongoing costs. The estimate must include expected staffing, maintenance, and future funding needs. Supporters argue that a program may look affordable in the first year but become difficult to fund later.

Which civic purpose is most directly supported by this requirement?

- A) Helping lawmakers consider long-term fiscal responsibility
- B) Allowing courts to collect state taxes directly
- C) Giving agencies authority to spend money without budgets
- D) Preventing citizens from learning about public programs

GED-SOC13-002

Section: Social Studies

Type: mcq

Category: Economics

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A household compares two credit card offers.

Card: A, B

Annual fee: \$0, \$95

Interest rate: 24%, 18%

Cash-back reward: 1%, 2%

Which statement is best supported by the table?

- A) Card B has a lower interest rate but a higher annual fee.
- B) Card A has both the lower interest rate and the higher reward.
- C) Card B has no annual fee and no rewards.
- D) The two cards have the same interest rate.

GED-SOC13-003

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Analyzing Historical Events and Arguments

Prompt:

Source:

In the mid-1800s, some reformers argued that prisons should focus not only on punishment but also on rehabilitation. They supported separate facilities for different types of offenders, education

programs, and improved conditions. Critics worried that reform plans would be expensive and might not reduce crime.

Which issue is most clearly reflected in this source?

- A) Debate over whether public institutions should try to reform behavior
- B) Debate over whether the United States should join a military alliance
- C) Conflict over building the first transcontinental railroad
- D) Disagreement over television regulation

GED-SOC13-004

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Reading for Meaning in Social Studies

Prompt:

A described map shows a country with a rainy western coast, a dry central plateau, and a humid eastern lowland. Timber production is concentrated on the western coast, sheep ranching is common on the plateau, and rice farming is common in the eastern lowland.

Which statement best explains the pattern?

- A) Climate differences help shape regional economic activities.
- B) Every region must specialize in the same product.
- C) Dry plateaus are usually best suited for rice farming.
- D) Timber production is unrelated to rainfall.

GED-SOC13-005

Section: Social Studies

Type: multi_select

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

Select TWO answers.

A state creates a public utility commission to review electricity rates. The commission must consider the cost of maintaining the power grid, the need for reliable service, and the effect of rates on consumers.

Which TWO statements best explain the civic purpose of this commission?

- A) It balances private utility operations with public needs.
- B) It creates a legal process for reviewing rates that affect residents.
- C) It gives utility companies power to write criminal laws.
- D) It removes government from all infrastructure decisions.
- E) It allows consumers to refuse all electricity payments.

GED-SOC13-006

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Paired sources:

Source A:

A governor argues that the state should create one statewide rule for short-term rental housing because different city rules make it harder for property owners to understand their responsibilities. The governor says a uniform rule would reduce confusion and encourage tourism.

Source B:

A city council member argues that cities need flexibility because short-term rentals affect neighborhoods differently. In some areas, rentals increase noise and reduce long-term housing. In other areas, they support tourism without causing many problems.

What is the main disagreement between the two sources?

- A) Whether short-term rental rules should be statewide or locally tailored
- B) Whether cities should appoint federal judges
- C) Whether tourism should be controlled by foreign governments
- D) Whether property owners should be forbidden from reading laws

GED-SOC13-007

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

During the late 1800s, some Native leaders traveled to Washington, D.C., to negotiate with federal officials. They often argued that treaties had been broken, promised supplies had not arrived, or reservation boundaries had been ignored. Federal officials usually held more power in these negotiations.

Which conclusion is best supported by the source?

- A) Native nations used diplomacy while facing unequal power in federal negotiations.
- B) Native leaders controlled all federal agencies.
- C) Treaties eliminated every conflict over land.
- D) Federal officials had no role in reservation policy.

GED-SOC13-008

Section: Social Studies

Type: dropdown

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

A state legislature may raise revenue through [D1], while a public agency may spend that money only when it has [D2].

Dropdowns:

D1) taxes and fees | jury verdicts | private rumors

D2) legal appropriation | foreign citizenship | personal permission

GED-SOC13-009

Section: Social Studies

Type: numeric_entry

Category: Economics

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A saver deposits \$3,000 in a one-year certificate of deposit with a simple annual interest rate of 4%. How many dollars of interest will the saver earn after one year?
Type your answer as a dollar amount without the dollar sign.

GED-SOC13-010

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Analyzing Historical Events and Arguments

Prompt:

A coastal nation depends on imported grain. When a war disrupts shipping in a distant region, grain prices rise and the government looks for new suppliers. Some leaders also propose investing in local grain storage and alternative crops.

Which conclusion is best supported by this scenario?

- A) Global supply disruptions can affect food security and domestic policy choices.
- B) Imported food is never affected by events in other regions.
- C) Local storage makes trade routes unnecessary in all cases.
- D) Wars affect only the countries where fighting occurs.

GED-SOC13-011

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

A federal law sets national safety standards for medical devices sold across state lines. A state wants to require additional warnings on the same devices. A court must decide whether the federal law leaves room for the state requirement.

Which issue is most directly involved?

- A) Whether federal regulation preempts additional state regulation
- B) Whether states may declare war over health products
- C) Whether local courts may appoint members of Congress
- D) Whether private companies may ratify amendments

GED-SOC13-012

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A table shows enrollment in adult education classes in one city.

Year: 1935, 1945, 1955

Enrollment: 3,800, 7,400, 12,600

Which statement is best supported by the data?

- A) Adult education enrollment increased from 1935 to 1955.
- B) Adult education enrollment decreased after 1935.

- C) Enrollment was highest in 1935.
- D) Enrollment stayed exactly the same in each year.

GED-SOC13-013

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution allows counties to form regional emergency communication districts. The districts operate radio systems shared by police, fire, and medical responders in several local governments. Each participating local government helps fund the system.

Which statement best describes the purpose of this arrangement?

- A) It coordinates a public service that crosses local boundaries.
- B) It gives counties power to conduct foreign relations.
- C) It removes all responsibility from local governments.
- D) It allows emergency districts to replace state courts.

GED-SOC13-014

Section: Social Studies

Type: mcq

Category: Economics

Skill: Analyzing Historical Events and Arguments

Prompt:

A country's central bank lowers interest rates during a slowdown. Some businesses find it cheaper to borrow money for equipment, and some households find mortgage payments more affordable. Critics warn that if borrowing grows too quickly, prices may rise.

Which conclusion is best supported by this scenario?

- A) Interest-rate policy can encourage borrowing but may create inflation concerns.
- B) Lower interest rates always reduce borrowing.
- C) Central banks control only local zoning decisions.
- D) Mortgage costs are unrelated to interest rates.

GED-SOC13-015

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state law says counties may regulate roadside signs only on county roads. Signs on state highways are regulated by the state transportation department. A county attempts to fine a business for a sign located beside a state highway.

Which statement best explains the legal problem?

- A) The county may be acting outside the authority assigned to it by state law.
- B) Counties always have unlimited authority over state highways.

- C) Businesses may ignore every sign regulation.
- D) State transportation departments cannot regulate roads.

GED-SOC13-016

Section: Social Studies

Type: multi_select

Category: U.S. History

Skill: Analyzing Historical Events and Arguments

Prompt:

Select TWO answers.

During the 1940s and 1950s, several cities built large public housing projects. Supporters said the projects replaced unsafe housing and provided affordable apartments. Critics argued that some projects concentrated poverty and were often separated from neighborhoods with more jobs and services.

Which TWO conclusions are best supported by this description?

- A) Housing policy was connected to debates over poverty and urban planning.
- B) Public housing solved every urban problem immediately.
- C) Location and access to services affected how housing programs worked.
- D) Cities stopped making housing policy after World War II.
- E) Affordable housing had no connection to public policy.

GED-SOC13-017

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A region reports employment by location and sector.

Location: Inland towns, Coastal cities

Manufacturing jobs: 18,000, 34,000

Tourism jobs: 6,000, 42,000

Which statement is best supported by the table?

- A) Coastal cities have more manufacturing jobs and more tourism jobs than inland towns.
- B) Inland towns have more tourism jobs than coastal cities.
- C) Manufacturing jobs are equal in both locations.
- D) Tourism jobs are higher in inland towns than manufacturing jobs.

GED-SOC13-018

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

A state creates a formula that sends more transportation money to counties with many miles of rural roads, even if those counties have smaller populations. Urban counties argue that population should matter more because more people use urban transit.

Which issue is most clearly shown?

- A) Different funding formulas can reflect competing ideas of fairness and public need.
- B) Rural roads are never funded by state governments.
- C) Urban counties cannot receive public funds.
- D) Transportation formulas are unrelated to public policy.

GED-SOC13-019

Section: Social Studies

Type: mcq

Category: Economics

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A state compares three job-training programs.

Program: A, B, C

Cost per participant: \$2,000, \$3,500, \$4,000

Job placement rate: 58%, 72%, 76%

Which statement is best supported by the table?

- A) Program C has the highest placement rate but also the highest cost per participant.
- B) Program A has the highest cost and highest placement rate.
- C) Program B has the lowest placement rate.
- D) All three programs have the same cost.

GED-SOC13-020

Section: Social Studies

Type: dropdown

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

When a state gives cities authority to govern certain local issues through their charters, that authority is often called [D1]. When state law overrides a local rule, the local rule may be limited by [D2].

Dropdowns:

D1) home rule | double jeopardy | naturalization

D2) state preemption | jury selection | foreign policy

GED-SOC13-021

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A public works project costs \$40 million. The state pays 45%, the county pays 35%, and private grants pay the rest.

How much does the county pay?

- A) \$8 million
- B) \$14 million
- C) \$18 million
- D) \$35 million

GED-SOC13-022

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state requires that any proposed constitutional amendment dealing with taxes include a short statement explaining who would likely pay the tax and what public service the revenue would support.

Which statement best describes the purpose of this requirement?

- A) To help voters connect tax choices with public services and affected taxpayers
- B) To prevent voters from learning about tax policy
- C) To allow courts to collect the tax before the election
- D) To replace constitutional amendments with private contracts

GED-SOC13-023

Section: Social Studies

Type: numeric_entry

Category: Geography and the World

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A freight train route carries 96 containers per train. A port receives 18 such trains in one day. How many containers arrive by train that day?

Type your answer as a whole number.

GED-SOC13-024

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Analyzing Historical Events and Arguments

Prompt:

Source:

In the 1910s and 1920s, jazz music spread from New Orleans to cities such as Chicago and New York. Musicians carried regional styles with them as they moved, and recordings helped the music reach national audiences.

Which broader historical pattern is shown by the source?

- A) Migration and new media helped spread cultural forms.
- B) Music remained isolated in one city.
- C) Recordings prevented cultural exchange.
- D) Jazz developed without any connection to urban life.

GED-SOC13-025

Section: Social Studies

Type: drag_drop

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

Match each target with the correct tile.

Tiles:

- A) Home rule
- B) Preemption
- C) Matching funds
- D) Regulatory commission

Targets:

- T1) State or federal law limiting a conflicting lower-level rule
- T2) Money one level of government must contribute to receive funding from another level
- T3) Public body that reviews rates or rules for regulated services

GED-SOC13-026

Section: Social Studies

Type: mcq

Category: Economics

Skill: Reading for Meaning in Social Studies

Prompt:

A company imports electronic parts from several countries and assembles the final product domestically. A delay at one foreign port slows the arrival of one key part, causing the company to reduce production for two weeks.

Which economic concept is most clearly shown?

- A) Supply chains can be vulnerable when production depends on inputs from multiple places.
- B) Imports have no effect on domestic production.
- C) Delays in one part of a supply chain always increase production.
- D) Companies that import parts do not assemble products domestically.

GED-SOC13-027

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

A state constitution requires that public pension funds be managed only for the benefit of workers and retirees covered by the plan. Officials may not use pension money to pay unrelated state expenses.

Which civic purpose is most directly supported by this rule?

- A) Protecting dedicated public funds from being used for unrelated purposes
- B) Allowing officials to spend pension funds on any program
- C) Giving private companies authority over state courts
- D) Eliminating retirement benefits for public workers

GED-SOC13-028

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

A state court rules that lawmakers may classify businesses differently for tax purposes if the classification has a reasonable basis. However, the court rejects a tax rule that singles out one business for a penalty without a public reason.

Which conclusion is best supported by the ruling?

- A) Tax classifications may be allowed, but arbitrary targeting can violate fairness principles.
- B) Legislatures may never classify businesses for tax purposes.
- C) Courts must approve every private business plan.
- D) Tax policy cannot be reviewed under any legal standard.

GED-SOC13-029

Section: Social Studies

Type: dropdown

Category: U.S. History

Skill: Reading for Meaning in Social Studies

Prompt:

During the late twentieth century, the growth of cable television and later digital media changed how Americans received news and entertainment. This development increased [D1] but also raised concerns about [D2].

Dropdowns:

D1) media choice and specialization | colonial taxation | canal construction

D2) audience fragmentation and misinformation | plantation agriculture | frontier forts

GED-SOC13-030

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A state pension fund has \$18 billion in assets and \$24 billion in promised future benefits.

What is the funding gap?

- A) \$6 billion
- B) \$18 billion
- C) \$24 billion
- D) \$42 billion

GED-SOC13-031

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state creates a procedure for counties to request disaster reimbursement after floods or fires. Counties must document eligible costs, such as temporary shelters, emergency road repairs, and debris removal. The state reviews requests before reimbursing part of the cost.

Which civic purpose is most directly supported by this procedure?

- A) Coordinating state assistance for local emergency costs
- B) Allowing counties to create foreign treaties
- C) Replacing all local governments after disasters
- D) Preventing governments from repairing public roads

GED-SOC13-032

Section: Social Studies

Type: multi_select

Category: Civics and Government

Skill: Using Numbers and Graphs in Social Studies

Prompt:

Select TWO answers.

A state compares two regions for school construction aid.

Region: North, South

Students: 90,000, 140,000

School buildings over 50 years old: 42, 38

Average local property tax base per student: \$72,000, \$49,000

Which TWO statements are supported by the data?

- A) The South has more students than the North.
- B) The North has more school buildings over 50 years old than the South.
- C) The South has a higher property tax base per student than the North.
- D) Both regions have the same number of students.
- E) The North has the lower property tax base per student.

GED-SOC13-033

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Analyzing Historical Events and Arguments

Prompt:

A described map shows a major river running through four countries before reaching the sea. Upstream countries use dams for electricity and irrigation. Downstream countries depend on seasonal river flow for fishing, farming, and drinking water.

Which conclusion is best supported by the described map?

- A) Rivers crossing borders can create shared benefits and disputes over resource use.
- B) River systems affect only the country nearest the sea.
- C) Dams have no connection to downstream communities.
- D) Borders prevent water from flowing between countries.

GED-SOC13-034

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A table shows suburban population in one metropolitan area.

Year: 1950, 1970, 1990

Suburban population: 420,000, 1,150,000, 2,300,000

Central city population: 1,800,000, 1,620,000, 1,410,000

Which statement is best supported by the table?

- A) Suburban population increased while central city population decreased.

- B) Central city population increased faster than suburban population.
- C) Both populations stayed the same over time.
- D) Suburban population was highest in 1950.

GED-SOC13-035

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution requires that money collected from fuel taxes be used only for transportation purposes, such as road repair, bridge maintenance, and transit projects. Lawmakers may not transfer the money to unrelated programs without changing the constitutional rule.

Which claim is best supported by the source?

- A) Dedicated revenue rules can limit how tax money is used.
- B) Fuel taxes may be spent on any private purpose without limits.
- C) Constitutional rules cannot affect public spending.
- D) Transportation projects cannot be funded by taxes.

PART B — ANSWER KEY + EXPLANATIONS

GED-SOC13-001 — Correct: A — Correct Answer: Helping lawmakers consider long-term fiscal responsibility — Explanation: A five-year estimate helps lawmakers evaluate future costs, not only first-year expenses.

GED-SOC13-002 — Correct: A — Correct Answer: Card B has a lower interest rate but a higher annual fee. — Explanation: Card B has an 18% rate compared with 24% for Card A, but its annual fee is \$95 rather than \$0.

GED-SOC13-003 — Correct: A — Correct Answer: Debate over whether public institutions should try to reform behavior — Explanation: The source describes prison reformers arguing for rehabilitation and critics questioning cost and effectiveness.

GED-SOC13-004 — Correct: A — Correct Answer: Climate differences help shape regional economic activities. — Explanation: Rainfall, dryness, and humidity help explain timber, ranching, and rice farming patterns.

GED-SOC13-005 — Correct: A,B — Correct Answer: It balances private utility operations with public needs. | It creates a legal process for reviewing rates that affect residents. — Explanation: Utility commissions review rates for essential services while considering reliability, costs, and consumers.

GED-SOC13-006 — Correct: A — Correct Answer: Whether short-term rental rules should be statewide or locally tailored — Explanation: Source A favors uniform statewide rules, while Source B emphasizes local effects and flexibility.

GED-SOC13-007 — Correct: A — Correct Answer: Native nations used diplomacy while facing unequal power in federal negotiations. — Explanation: Native leaders negotiated with federal officials but did so in a relationship where the federal government usually had more power.

GED-SOC13-008 — Correct: D1=taxes and fees; D2=legal appropriation — Correct Answer: D1=taxes and fees; D2=legal appropriation — Explanation: Legislatures raise revenue through taxes and fees, while agencies need legal spending authority.

GED-SOC13-009 — Correct: 120 — Tolerance: exact — Correct Answer: 120 — Explanation: Simple interest is $\$3,000 \times 0.04 \times 1 = \120 .

GED-SOC13-010 — Correct: A — Correct Answer: Global supply disruptions can affect food security and domestic policy choices. — Explanation: War disrupts grain shipping, raising prices and leading the government to consider suppliers and storage.

GED-SOC13-011 — Correct: A — Correct Answer: Whether federal regulation preempts additional state regulation — Explanation: The court must decide whether federal medical-device rules leave room for additional state warning rules.

GED-SOC13-012 — Correct: A — Correct Answer: Adult education enrollment increased from 1935 to 1955. — Explanation: Enrollment rose from 3,800 to 12,600.

GED-SOC13-013 — Correct: A — Correct Answer: It coordinates a public service that crosses local boundaries. — Explanation: Regional districts help several local governments share emergency communication systems.

GED-SOC13-014 — Correct: A — Correct Answer: Interest-rate policy can encourage borrowing but may create inflation concerns. — Explanation: Lower rates can make borrowing cheaper, but rapid borrowing and spending may contribute to price increases.

GED-SOC13-015 — Correct: A — Correct Answer: The county may be acting outside the authority assigned to it by state law. — Explanation: State law gives the state transportation department authority over signs on state highways.

GED-SOC13-016 — Correct: A,C — Correct Answer: Housing policy was connected to debates over poverty and urban planning. | Location and access to services affected how housing programs worked. — Explanation: The description connects housing projects to poverty, urban planning, and access to jobs and services.

GED-SOC13-017 — Correct: A — Correct Answer: Coastal cities have more manufacturing jobs and more tourism jobs than inland towns. — Explanation: Coastal cities have 34,000 manufacturing jobs and 42,000 tourism jobs, both higher than inland towns.

GED-SOC13-018 — Correct: A — Correct Answer: Different funding formulas can reflect competing ideas of fairness and public need. — Explanation: The formula prioritizes rural road miles, while urban counties argue for population-based need.

GED-SOC13-019 — Correct: A — Correct Answer: Program C has the highest placement rate but also the highest cost per participant. — Explanation: Program C has the highest placement rate, 76%, and the highest cost, \$4,000.

GED-SOC13-020 — Correct: D1=home rule; D2=state preemption — Correct Answer: D1=home rule; D2=state preemption — Explanation: Home rule gives local authority, while state preemption can limit conflicting local rules.

GED-SOC13-021 — Correct: B — Correct Answer: \$14 million — Explanation: The county pays 35% of \$40 million, which is \$14 million.

GED-SOC13-022 — Correct: A — Correct Answer: To help voters connect tax choices with public services and affected taxpayers — Explanation: The statement explains who pays the tax and what service the revenue supports.

GED-SOC13-023 — Correct: 1728 — Tolerance: exact — Correct Answer: 1728 — Explanation: $96 \text{ containers per train} \times 18 \text{ trains} = 1,728 \text{ containers}$.

GED-SOC13-024 — Correct: A — Correct Answer: Migration and new media helped spread cultural forms. — Explanation: Musicians moved to new cities, and recordings helped jazz reach wider audiences.

GED-SOC13-025 — Correct: T1=B; T2=C; T3=D — Correct Answer: T1=Preemption; T2=Matching funds; T3=Regulatory commission — Explanation: Preemption limits conflicting lower-level rules, matching funds require contribution, and a regulatory commission reviews regulated services.

GED-SOC13-026 — Correct: A — Correct Answer: Supply chains can be vulnerable when production depends on inputs from multiple places. — Explanation: A port delay abroad slows delivery of a key part and reduces domestic production.

GED-SOC13-027 — Correct: A — Correct Answer: Protecting dedicated public funds from being used for unrelated purposes — Explanation: Pension funds must be managed for workers and retirees, not unrelated state expenses.

GED-SOC13-028 — Correct: A — Correct Answer: Tax classifications may be allowed, but arbitrary targeting can violate fairness principles. — Explanation: The court allows reasonable classifications but rejects a penalty aimed at one business without a public reason.

GED-SOC13-029 — Correct: D1=media choice and specialization; D2=audience fragmentation and misinformation — Correct Answer: D1=media choice and specialization; D2=audience fragmentation and misinformation — Explanation: More media options increased choice while raising concerns about fragmented audiences and misinformation.

GED-SOC13-030 — Correct: A — Correct Answer: \$6 billion — Explanation: \$24 billion in promised benefits minus \$18 billion in assets equals a \$6 billion gap.

GED-SOC13-031 — Correct: A — Correct Answer: Coordinating state assistance for local emergency costs — Explanation: The procedure lets counties document disaster costs and receive partial state reimbursement.

GED-SOC13-032 — Correct: A,B — Correct Answer: The South has more students than the North. | The North has more school buildings over 50 years old than the South. — Explanation: The South has 140,000 students versus 90,000 in the North, while the North has 42 older buildings versus 38 in the South.

GED-SOC13-033 — Correct: A — Correct Answer: Rivers crossing borders can create shared benefits and disputes over resource use. — Explanation: Upstream dams and downstream needs show how one river system affects several countries.

GED-SOC13-034 — Correct: A — Correct Answer: Suburban population increased while central city population decreased. — Explanation: Suburban population rose from 420,000 to 2,300,000, while central city population fell from 1,800,000 to 1,410,000.

GED-SOC13-035 — Correct: A — Correct Answer: Dedicated revenue rules can limit how tax money is used. — Explanation: Fuel tax revenue is constitutionally dedicated to transportation purposes.
