

GED Social Studies Practice Test 16

PART A — QUESTIONS

GED-SOC16-001

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution requires lawmakers to explain whether a proposed tax increase will be temporary or permanent. If the tax is temporary, the law must state the exact year it expires. Supporters say voters and taxpayers should know whether a revenue measure is meant to solve a short-term problem or fund an ongoing program.

Which civic purpose is most directly supported by this requirement?

- A) Clarifying the intended duration of public revenue policy
- B) Allowing courts to collect taxes without legislation
- C) Giving private companies power to cancel state taxes
- D) Preventing lawmakers from discussing public revenue

GED-SOC16-002

Section: Social Studies

Type: mcq

Category: Economics

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A city compares two ways to fund street repairs.

Funding method: Fuel tax, Downtown parking fee

Estimated annual revenue: \$12 million, \$8 million

Main group paying: Drivers buying fuel, Drivers parking downtown

Administrative cost: \$0.8 million, \$1.6 million

Which statement is best supported by the table?

- A) The fuel tax raises more revenue and has a lower administrative cost.
- B) The parking fee raises more revenue and has a lower administrative cost.
- C) Both methods raise the same revenue.
- D) The fuel tax affects only people who park downtown.

GED-SOC16-003

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Analyzing Historical Events and Arguments

Prompt:

Source:

In the early 1800s, some states passed laws requiring debtors' prisons to release people who could not repay small debts. Reformers argued that jailing poor debtors made repayment harder and

punished poverty. Critics argued that creditors needed strong legal tools to collect money owed to them.

Which issue is most clearly reflected in the source?

- A) Debate over balancing creditor rights with protections for poor debtors
- B) Debate over whether the United States should enter World War II
- C) Conflict over television broadcasting rules
- D) Disagreement over whether railroads should use steam engines

GED-SOC16-004

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Reading for Meaning in Social Studies

Prompt:

A described map shows a fertile river valley surrounded by dry uplands. The valley contains dense villages, irrigation canals, and market roads. The uplands have scattered herding camps and few permanent roads.

Which statement best explains the settlement pattern?

- A) Water access and fertile soil support denser settlement in the valley.
- B) Dry uplands always support denser settlement than river valleys.
- C) Irrigation canals prevent villages from developing.
- D) Market roads have no relationship to settlement.

GED-SOC16-005

Section: Social Studies

Type: multi_select

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

Select TWO answers.

A state requires that any public-private partnership for a toll road include rules for maximum toll increases and maintenance standards. The private company may collect tolls, but the state keeps authority to enforce the contract.

Which TWO statements best explain the civic issue in this arrangement?

- A) Public infrastructure can involve private operators while remaining subject to government oversight.
- B) Contract limits can protect users from unlimited toll increases.
- C) Private companies may create taxes without legal permission.
- D) Government loses all authority when a private company operates a road.
- E) Toll roads cannot be connected to public policy.

GED-SOC16-006

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Paired sources:

Source A:

A federal official argues that artificial intelligence systems used in hiring should follow one national anti-discrimination standard. The official says employers often recruit across state lines, and applicants should receive the same protection regardless of location.

Source B:

A state labor official argues that states should be allowed to require additional audits when automated hiring tools are used by employers in high-risk industries. The official says local labor markets and state civil rights laws may justify stronger protections.

What is the main disagreement between the two sources?

- A) Whether automated hiring rules should be nationally uniform or allow stronger state protections
- B) Whether employers should be allowed to ignore all civil rights laws
- C) Whether states may appoint federal judges for hiring disputes
- D) Whether job applicants should be banned from applying across state lines

GED-SOC16-007

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

In the late nineteenth century, many women's clubs organized libraries, health campaigns, kindergarten programs, and anti-lynching efforts. Some members could not vote, but they used voluntary associations to influence public life and local reform.

Which conclusion is best supported by the source?

- A) Women used civic organizations to shape reform even before full voting rights.
- B) Women's clubs avoided all public issues.
- C) Anti-lynching activism was unrelated to civic life.
- D) Voluntary associations had no role in local reform.

GED-SOC16-008

Section: Social Studies

Type: dropdown

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

When a government hires a private company to provide a public service, the agreement is a [D1].
When the agreement includes measurable goals for service quality, those goals are [D2].

Dropdowns:

D1) public contract | naturalization petition | jury verdict

D2) performance standards | foreign alliances | voting districts

GED-SOC16-009

Section: Social Studies

Type: numeric_entry

Category: Economics

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A household has a \$6,000 car loan balance with a simple annual interest rate of 9%. How many dollars of interest will be owed for one year?

Type your answer as a dollar amount without the dollar sign.

GED-SOC16-010

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Analyzing Historical Events and Arguments

Prompt:

A landlocked country exports grain to overseas markets. To reach a seaport, trucks must cross two neighboring countries. When one border crossing closes for repairs, shipping time increases and some grain spoils before reaching buyers.

Which conclusion is best supported by this scenario?

- A) Landlocked countries can depend heavily on neighboring transit routes.
- B) Border crossings have no effect on trade.
- C) Grain exports do not require transportation.
- D) Landlocked countries always have direct ocean access.

GED-SOC16-011

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

A state legislature passes a law requiring counties to preserve certain wetlands, but it also creates a grant program to help counties purchase land or compensate owners. Counties must report how grant money is used.

Which statement best explains this state-local relationship?

- A) The state sets an environmental requirement and provides partial funding for local implementation.
- B) Counties may ignore all state environmental laws.
- C) The grant program allows private owners to write state law.
- D) Wetland protection can be enforced only by foreign governments.

GED-SOC16-012

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A table shows membership in a national conservation organization.

Year: 1915, 1935, 1955

Members: 12,000, 48,000, 135,000

Local chapters: 22, 75, 160

Which statement is best supported by the table?

- A) Membership and local chapters both increased, with membership growing more sharply.

- B) Membership decreased while local chapters increased.
- C) Local chapters were highest in 1915.
- D) Membership stayed below 20,000 in 1955.

GED-SOC16-013

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution allows the legislature to create independent boards for professional licensing. These boards may set exam requirements and discipline license holders, but their rules must stay within the statute that created the board.

Which statement best describes this arrangement?

- A) Licensing boards may regulate professions within authority granted by law.
- B) Licensing boards may ignore the laws that create them.
- C) Professional licensing is controlled only by foreign governments.
- D) Courts cannot review any licensing decision.

GED-SOC16-014

Section: Social Studies

Type: mcq

Category: Economics

Skill: Analyzing Historical Events and Arguments

Prompt:

A country places a quota on imported sugar. Domestic sugar producers benefit because foreign competition is limited. Candy and beverage companies oppose the quota because sugar becomes more expensive for them.

Which conclusion is best supported by this scenario?

- A) Import limits can help some producers while raising costs for businesses that use the product.
- B) Quotas always lower input costs for every industry.
- C) Domestic producers cannot be affected by import rules.
- D) Businesses that use sugar are unrelated to trade policy.

GED-SOC16-015

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution requires that public money used for emergency relief be distributed according to written eligibility rules. Officials may not choose recipients based on personal friendships, campaign support, or political loyalty.

Which civic principle is most directly reflected?

- A) Public benefits should be distributed according to neutral rules.
- B) Emergency relief should be controlled by personal favoritism.

- C) Campaign support should determine public aid.
- D) Written rules are unnecessary for public spending.

GED-SOC16-016

Section: Social Studies

Type: multi_select

Category: U.S. History

Skill: Analyzing Historical Events and Arguments

Prompt:

Select TWO answers.

During the mid-twentieth century, American Indian activists challenged federal policies that encouraged termination of tribal status and relocation to cities. Activists argued for treaty rights, tribal sovereignty, and control over education and social services.

Which TWO conclusions are best supported by this description?

- A) Activists connected civil rights claims to tribal self-government.
- B) Federal policy debates affected Native communities and institutions.
- C) Termination policies gave every tribe complete independence.
- D) Activists focused only on overseas military alliances.
- E) Treaty rights were unrelated to political organizing.

GED-SOC16-017

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A region compares water use and economic output.

Sector: Agriculture, Manufacturing, Tourism

Water use: 62%, 24%, 14%

Share of regional income: 28%, 46%, 26%

Which statement is best supported by the table?

- A) Agriculture uses the most water but does not produce the largest share of income.
- B) Manufacturing uses the most water and produces the least income.
- C) Tourism uses more water than agriculture.
- D) All sectors use the same amount of water.

GED-SOC16-018

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

A state court reviews a law that gives a tax exemption only to businesses located in one named town. The state argues that the town needs help after a factory closure. Opponents argue that the law unfairly excludes similar towns with similar problems.

Which question is the court most likely considering?

- A) Whether the tax classification has a reasonable public purpose

- B) Whether towns may appoint federal senators
- C) Whether tax exemptions are controlled by foreign treaties
- D) Whether courts must collect the tax directly

GED-SOC16-019

Section: Social Studies

Type: mcq

Category: Economics

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A county compares two workforce programs.

Program: Welding certificate, Health aide training

Cost per student: \$4,200, \$2,800

Completion rate: 70%, 82%

Median starting wage: \$24/hour, \$19/hour

Which statement is best supported by the table?

- A) Welding has the higher starting wage, while health aide training has the lower cost and higher completion rate.
- B) Health aide training has the higher starting wage and higher cost.
- C) Both programs have the same completion rate.
- D) Welding has the lower cost and lower starting wage.

GED-SOC16-020

Section: Social Studies

Type: dropdown

Category: U.S. History

Skill: Reading for Meaning in Social Studies

Prompt:

During the late twentieth century, the growth of community health centers in underserved areas reflected concern about [D1] and expanded access to [D2].

Dropdowns:

D1) unequal access to medical care | colonial taxation | early railroad charters

D2) local preventive and primary care services | overseas monarchies | plantation exports

GED-SOC16-021

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A regional airport project costs \$120 million. The federal government pays 50%, the state pays 30%, and local governments pay the rest.

How much do local governments pay?

- A) \$12 million
- B) \$20 million
- C) \$24 million
- D) \$36 million

GED-SOC16-022

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state requires counties to maintain emergency shelters during declared disasters. Counties may operate shelters directly, contract with nonprofit organizations, or form agreements with nearby counties to share shelter space.

Which statement best describes this state-local relationship?

- A) The state requires a service while allowing counties flexibility in how to provide it.
- B) Counties may ignore disaster responsibilities.
- C) Nonprofit organizations become state courts.
- D) Emergency shelters are unrelated to local government.

GED-SOC16-023

Section: Social Studies

Type: numeric_entry

Category: Geography and the World

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A new bridge reduces a delivery route from 185 miles to 142 miles. How many miles shorter is the route?

Type your answer as a whole number.

GED-SOC16-024

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Analyzing Historical Events and Arguments

Prompt:

Source:

In the 1970s, many Southeast Asian refugees arrived in the United States after war and political upheaval. Community groups, churches, schools, and local agencies helped with language classes, job placement, and housing. Refugees also built businesses and cultural organizations.

Which broader historical pattern is shown by the source?

- A) Refugee resettlement involved both public support and community institution-building.
- B) Refugees did not create businesses or organizations.
- C) War abroad had no effect on migration to the United States.
- D) Local communities played no role in resettlement.

GED-SOC16-025

Section: Social Studies

Type: drag_drop

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

Match each target with the correct tile.

Tiles:

- A) Licensing board
- B) Public-private partnership
- C) Neutral eligibility rule
- D) Conditional grant

Targets:

- T1) A government arrangement with a private operator for a public project or service
- T2) A standard that distributes public benefits without personal favoritism
- T3) Funding that requires another government to meet certain policy conditions

GED-SOC16-026

Section: Social Studies

Type: mcq

Category: Economics

Skill: Reading for Meaning in Social Studies

Prompt:

A company sells products in several countries. When the dollar becomes stronger compared with other currencies, its products become more expensive for many foreign customers. The company worries that exports may decline.

Which economic concept is most clearly shown?

- A) Exchange rates can affect demand for exports.
- B) A stronger dollar always makes exports cheaper abroad.
- C) Foreign customers are never affected by currency values.
- D) Export sales are unrelated to prices.

GED-SOC16-027

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

A state constitution requires that revenue from a temporary disaster surcharge be used only for rebuilding public infrastructure damaged by the disaster. The surcharge expires after five years unless voters approve an extension.

Which civic purpose is most directly supported by this rule?

- A) Linking temporary revenue to a specific recovery purpose and time limit
- B) Allowing surcharge revenue to be spent on unrelated private projects
- C) Preventing voters from reviewing disaster policy
- D) Giving courts authority to create tax surcharges

GED-SOC16-028

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Analyzing Historical Events and Arguments

Prompt:

A court reviews a city's inspection fee for rental housing. The court says the fee may be valid if it reasonably covers inspection costs, but it cannot be set so high that it functions as a hidden revenue tax unrelated to the inspection program.

Which conclusion is best supported by the ruling?

- A) Regulatory fees should be connected to the cost of the service being regulated.
- B) Cities may charge unlimited inspection fees for any purpose.
- C) Housing inspections cannot be funded by fees.
- D) Courts may not review local fee systems.

GED-SOC16-029

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A table shows U.S. museum attendance by museum type.

Year: 1980, 2000, 2020

Science museums: 18 million, 39 million, 52 million

History museums: 24 million, 31 million, 36 million

Which statement is best supported by the table?

- A) Science museum attendance grew more than history museum attendance.
- B) History museum attendance decreased from 1980 to 2020.
- C) Science museums had higher attendance than history museums in 1980.
- D) Both museum types had the same attendance in 2020.

GED-SOC16-030

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Using Numbers and Graphs in Social Studies

Prompt:

A state environmental fund starts with \$64 million. It awards \$18 million for forest restoration, \$12 million for river cleanup, and \$9 million for park repairs.

How much money remains in the fund?

- A) \$25 million
- B) \$27 million
- C) \$39 million
- D) \$64 million

GED-SOC16-031

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state allows two neighboring counties to create a joint tax district for a commuter rail station.

Both counties must approve the district because residents from both counties are expected to use the station and benefit from nearby development.

Which civic purpose is most directly supported by this arrangement?

- A) Sharing revenue responsibility for a project that benefits multiple local governments
- B) Allowing one county to tax another county without approval
- C) Giving rail stations authority to replace county governments
- D) Preventing local governments from cooperating on transportation projects

GED-SOC16-032

Section: Social Studies

Type: multi_select

Category: Civics and Government

Skill: Using Numbers and Graphs in Social Studies

Prompt:

Select TWO answers.

A state compares disaster recovery applications.

County: River, Pine, Mesa

Damaged public roads: 42 miles, 18 miles, 27 miles

Local matching funds available: \$3 million, \$1 million, \$4 million

Households displaced: 1,800, 700, 1,200

Which TWO statements are supported by the data?

- A) River County has the most damaged public road miles.
- B) Mesa County has the most local matching funds available.
- C) Pine County has the most displaced households.
- D) River County has fewer damaged road miles than Pine County.
- E) Mesa County has the fewest local matching funds available.

GED-SOC16-033

Section: Social Studies

Type: mcq

Category: Geography and the World

Skill: Analyzing Historical Events and Arguments

Prompt:

A described map shows a chain of coastal cities connected by ferry routes and underwater internet cables. The cities have developed call centers, software firms, and port services. Smaller inland towns depend on road links to reach these coastal economic centers.

Which conclusion is best supported by the described map?

- A) Transportation and digital connections can shape regional economic networks.
- B) Internet cables prevent cities from developing service industries.
- C) Ferry routes are unrelated to regional economies.
- D) Inland towns never depend on coastal connections.

GED-SOC16-034

Section: Social Studies

Type: mcq

Category: U.S. History

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

In the late twentieth century, some rural communities created heritage tourism programs around

music, crafts, food traditions, and historic sites. Supporters hoped tourism would create jobs while preserving local culture. Critics warned that cultural traditions could be simplified for visitors.

Which statement best summarizes the source?

- A) Heritage tourism could support local economies while raising concerns about cultural representation.
- B) Rural communities had no cultural traditions to preserve.
- C) Tourism prevented any discussion of local history.
- D) Historic sites had no connection to economic development.

GED-SOC16-035

Section: Social Studies

Type: mcq

Category: Civics and Government

Skill: Reading for Meaning in Social Studies

Prompt:

Source:

A state constitution requires that money collected from water-use penalties be used for watershed restoration, drought planning, or conservation education. Lawmakers may not transfer the money to unrelated programs without changing the constitutional rule.

Which claim is best supported by the source?

- A) Penalty revenue can be dedicated to a related public purpose.
- B) Water-use penalties must be used only for private gifts.
- C) Watershed restoration cannot be funded by public money.
- D) Constitutional spending rules cannot restrict lawmakers.

PART B — ANSWER KEY + EXPLANATIONS

GED-SOC16-001 — Correct: A — Correct Answer: Clarifying the intended duration of public revenue policy — Explanation: The requirement tells taxpayers whether the tax is temporary or permanent and when it expires.

GED-SOC16-002 — Correct: A — Correct Answer: The fuel tax raises more revenue and has a lower administrative cost. — Explanation: The fuel tax raises \$12 million and costs \$0.8 million to administer, compared with \$8 million and \$1.6 million for the parking fee.

GED-SOC16-003 — Correct: A — Correct Answer: Debate over balancing creditor rights with protections for poor debtors — Explanation: The source contrasts reformers' concern for poor debtors with creditors' interest in collecting debts.

GED-SOC16-004 — Correct: A — Correct Answer: Water access and fertile soil support denser settlement in the valley. — Explanation: The valley has water, canals, farms, market roads, and denser villages.

GED-SOC16-005 — Correct: A,B — Correct Answer: Public infrastructure can involve private operators while remaining subject to government oversight. | Contract limits can protect users from unlimited toll increases. — Explanation: The private company operates the road, but the state enforces toll and maintenance rules.

GED-SOC16-006 — Correct: A — Correct Answer: Whether automated hiring rules should be nationally uniform or allow stronger state protections — Explanation: Source A favors a national standard, while Source B supports additional state requirements.

GED-SOC16-007 — Correct: A — Correct Answer: Women used civic organizations to shape reform even before full voting rights. — Explanation: Women's clubs worked on libraries, health campaigns, kindergarten programs, and anti-lynching efforts.

GED-SOC16-008 — Correct: D1=public contract; D2=performance standards — Correct Answer: D1=public contract; D2=performance standards — Explanation: A government agreement with a company is a public contract, and measurable goals are performance standards.

GED-SOC16-009 — Correct: 540 — Tolerance: exact — Correct Answer: 540 — Explanation: Simple interest is $\$6,000 \times 0.09 \times 1 = \540 .

GED-SOC16-010 — Correct: A — Correct Answer: Landlocked countries can depend heavily on neighboring transit routes. — Explanation: The country must cross neighboring countries to reach a seaport, and a closed border crossing delays trade.

GED-SOC16-011 — Correct: A — Correct Answer: The state sets an environmental requirement and provides partial funding for local implementation. — Explanation: The state requires wetland preservation and helps counties pay through grants.

GED-SOC16-012 — Correct: A — Correct Answer: Membership and local chapters both increased, with membership growing more sharply. — Explanation: Membership increased from 12,000 to 135,000, while chapters increased from 22 to 160.

GED-SOC16-013 — Correct: A — Correct Answer: Licensing boards may regulate professions within authority granted by law. — Explanation: The boards can set requirements and discipline license holders only within statutory limits.

GED-SOC16-014 — Correct: A — Correct Answer: Import limits can help some producers while raising costs for businesses that use the product. — Explanation: The quota helps domestic sugar producers but raises costs for candy and beverage companies.

GED-SOC16-015 — Correct: A — Correct Answer: Public benefits should be distributed according to neutral rules. — Explanation: Emergency relief must follow written eligibility rules rather than favoritism.

GED-SOC16-016 — Correct: A,B — Correct Answer: Activists connected civil rights claims to tribal self-government. | Federal policy debates affected Native communities and institutions. — Explanation: Activists challenged termination and relocation policies while arguing for sovereignty and treaty rights.

GED-SOC16-017 — Correct: A — Correct Answer: Agriculture uses the most water but does not produce the largest share of income. — Explanation: Agriculture uses 62% of water, but manufacturing produces the largest income share at 46%.

GED-SOC16-018 — Correct: A — Correct Answer: Whether the tax classification has a reasonable public purpose — Explanation: The court considers whether helping one town after a factory closure is a reasonable basis for the tax exemption.

GED-SOC16-019 — Correct: A — Correct Answer: Welding has the higher starting wage, while health aide training has the lower cost and higher completion rate. — Explanation: Welding pays \$24/hour, while health aide training costs less and has a higher completion rate.

GED-SOC16-020 — Correct: D1=unequal access to medical care; D2=local preventive and primary care services — Correct Answer: D1=unequal access to medical care; D2=local preventive and primary care services — Explanation: Community health centers expanded access to basic health services in underserved areas.

GED-SOC16-021 — Correct: C — Correct Answer: \$24 million — Explanation: Federal and state shares total 80%, so local governments pay 20% of \$120 million, or \$24 million.

GED-SOC16-022 — Correct: A — Correct Answer: The state requires a service while allowing counties flexibility in how to provide it. — Explanation: Counties must maintain shelters but may operate, contract, or share services.

GED-SOC16-023 — Correct: 43 — Tolerance: exact — Correct Answer: 43 — Explanation: 185 miles minus 142 miles equals 43 miles.

GED-SOC16-024 — Correct: A — Correct Answer: Refugee resettlement involved both public support and community institution-building. — Explanation: Agencies and community groups helped refugees, while refugees built businesses and cultural organizations.

GED-SOC16-025 — Correct: T1=B; T2=C; T3=D — Correct Answer: T1=Public-private partnership; T2=Neutral eligibility rule; T3=Conditional grant — Explanation: Public-private partnerships use private operators for public services, neutral eligibility rules avoid favoritism, and conditional grants require policy conditions.

GED-SOC16-026 — Correct: A — Correct Answer: Exchange rates can affect demand for exports. — Explanation: A stronger dollar can make U.S. products more expensive abroad, reducing demand.

GED-SOC16-027 — Correct: A — Correct Answer: Linking temporary revenue to a specific recovery purpose and time limit — Explanation: The surcharge is restricted to disaster rebuilding and expires after five years unless extended.

GED-SOC16-028 — Correct: A — Correct Answer: Regulatory fees should be connected to the cost of the service being regulated. — Explanation: The inspection fee must relate to inspection costs rather than hidden revenue raising.

GED-SOC16-029 — Correct: A — Correct Answer: Science museum attendance grew more than history museum attendance. — Explanation: Science museum attendance rose by 34 million, while history museum attendance rose by 12 million.

GED-SOC16-030 — Correct: A — Correct Answer: \$25 million — Explanation: Awards total \$39 million; \$64 million minus \$39 million leaves \$25 million.

GED-SOC16-031 — Correct: A — Correct Answer: Sharing revenue responsibility for a project that benefits multiple local governments — Explanation: Both counties benefit from the commuter rail station, so both approve the joint tax district.

GED-SOC16-032 — Correct: A,B — Correct Answer: River County has the most damaged public road miles. | Mesa County has the most local matching funds available. — Explanation: River has 42 damaged road miles, and Mesa has \$4 million in matching funds.

GED-SOC16-033 — Correct: A — Correct Answer: Transportation and digital connections can shape regional economic networks. — Explanation: Ferry routes and internet cables are linked to service industries and connections between inland and coastal cities.

GED-SOC16-034 — Correct: A — Correct Answer: Heritage tourism could support local economies while raising concerns about cultural representation. — Explanation: Tourism may create jobs and preserve culture, but critics worry traditions may be simplified.

GED-SOC16-035 — Correct: A — Correct Answer: Penalty revenue can be dedicated to a related public purpose. — Explanation: Water-use penalties are restricted to watershed restoration, drought planning, or conservation education.
